

KEBNI HAS RECEIVED A NEW ORDER WITH A LEADING MANUFACTURING COMPANY

Kebni AB (publ.) received renewed trust regarding a tailor-made inertial measurement unit for autonomous driving from a leading manufacturing company. The order value is 5.2 MSEK. Deliveries will commence immediately and be finalized in 2028 or earlier based on operational needs.

Kebni's highly robust and reliable inertial sensing solution ensures uninterrupted navigation support in one of the roughest environments.

“This order is yet another confirmation of our products’ customer value and long-term reliability. A positive reflection thereof, and of our deepening collaboration with key clients, is that the order value increases.” says Erik Winther, Head of Sales.

The units are being produced in Kebni’s production site in Karlskoga, Sweden, alongside other Inertial Sensing solutions.
