

engcon moves to Nasdaq Stockholm Large Cap

Today, Nasdaq announced that engcon will be moved to Nasdaq Stockholm's Large Cap segment. The move will take place on January 2, 2025.

The move to Large Cap is based on the average market capitalization in November 2024. On Nasdaq Stockholm's Large Cap, companies with a market value of EUR 1 billion or more are included.

"The move to Large Cap is a significant step and another mark of quality for us. We are incredibly proud of the growth journey engcon has had and still has ahead of us. The knowledge of the tiltrotator's advantage remains low worldwide, while the need for sustainable and resource-efficient digging continues to grow. With our innovative products and industry-leading position, we continue to change the world of digging," says Krister Blomgren, CEO of engcon.
