
Interview with CEO Ulric Ljungblad and CTO Per Woxenius

In Finansröven's latest podcast, Ulric Ljungblad and Per Woxenius are interviewed how they view the 3D printing industry in general and Freemelt in particular.

In the interview, Ulric and Per give their views on Freemelt and its role in the 3D printer industry. Other things that are discussed are open source, existing products and how to look at the future.

Welcome to listen! The interview is 18 minutes long and is in Swedish.

Finansröven is a podcast run by Dagens PS:

About Us

Freemelt is a high-tech growth company whose ground-breaking solution creates new opportunities for rapid growth in 3D printing, also known as additive manufacturing. The Company's protected technology – which already are available – takes 3D printing to a new level and provides new opportunities for printing products in a cost-effective way and to a consistent and high quality that previously was impossible. By choosing an open source solution, the conditions are created for strong growth, and the Company will expand towards manufacturing markets, moving forward. For more information, see www.freemelt.com.
