

Westpay partners with ACI Worldwide for a complete Integrated Commerce offering

Westpay AB, a leading payment solution provider, and [ACI Worldwide](#) (NASDAQ: ACIW), the global leader in mission-critical, [real-time payments software](#), have signed a cooperation agreement. The partnership will extend Westpay's current payment solutions for instore applications with state-of-the-art eCommerce capabilities, thus forming a market leading offering for Integrated Commerce. First commercial customer installations will commence in Q2 2022. The new offering will add further transaction revenues to Westpay's revenue mix.

One of the most significant changes during the past years has been the greater adoption of eCommerce and the rise in online shopping. However, the in-store environment is still, for many merchants, the place where the majority of the transactions take place. With the integration of [ACI Secure eCommerce](#), Westpay can link the areas of eCommerce and Instore together. Managing payments and consumer interaction seamlessly, regardless of what payment method is used or where the transaction originated or where it was completed. - New eCommerce offering includes powerful gateway with access to an extensive global payments network and multi-layered fraud management

- Customers have access to all aggregated data in one portal
