

Ortivus is awarded a contract for the delivery of MobiMed to Region Jämtland Härjedalen

Region Jämtland Härjedalen has chosen to award Ortivus a contract for the delivery of MobiMed enRoute to the region's ambulance operations. The order value is estimated to 2.5 MSEK and the contract duration is 8 years.

We are pleased to announce that Ortivus has been awarded a contract for the delivery of MobiMed enRoute to Region Jämtland Härjedalen's ambulance operations, which includes 28 ambulance vehicles.

Ortivus proudly serves 16 of Sweden's 21 regions, including the longstanding customer Region Jämtland Härjedalen. For years, the region has utilized Ortivus' solutions, MobiMed Monitor and MobiMed ePR, to enhance patient care and healthcare efficiency. This contract covers Ortivus' latest innovation, MobiMed enRoute, a comprehensive solution encompassing navigation, case management, and damage control. The agreement mainly regards software licenses but also hardware, integrations with existing systems, and user training. Through this partnership, the region is poised to receive a competitive total solution for its pre-hospital care.

"We are very happy about Region Jämtland Härjedalen's continued confidence in our solutions. We look forward to delivering MobiMed enRoute to the region, with the goal to enhance communication and streamline workflows, ultimately resulting in safer and more efficient patient care." Says Elias Obaid, Global Sales Manager, Ortivus.

The contract can earliest be signed after a period of 10 days from the date of the award, in accordance with the procurement regulations.

About Ortivus

Ortivus develops and commercialises MobiMed, e-health and medical technology solutions for a safer and more efficient healthcare. The company was founded in 1985 and is today a leading provider of mobile digital solutions for prehospital care, worldwide. Ortivus' innovations are based on in-depth expertise in cardiology as well as decades of development together with users and customers. The company's headquarters are located in Danderyd, Stockholm. The company has, since 1998, a wholly owned subsidiary based in the United Kingdom and since 2022, a wholly owned subsidiary based in Denmark.

MobiMed is a modular platform that connects and enable real-time information sharing throughout the prehospital care chain. It is currently used by over 12,000 paramedics in over 2,700 emergency vehicles. The platform, MobiMed, consists of several product modules that are completely integrated but can also be used stand-alone. MobiMed comprises four main solutions: MobiMed Monitor, that measures, monitors and shares patients' vital parameters and ECG in real-time, MobiMed ePR, - an electronic patient record for decision support, collection of patient data and clinical documentation, MobiMed enRoute, - a tool for navigation and case management, and MobiMed Life - a range of stand-alone defibrillators.

MobiMed saves vital seconds and enable healthcare professionals make the right decisions in critical situations. MobiMed also contributes to improved quality of care and saved resources.

Ortivus Class A and Class B shares are listed on the NASDAQ Stockholm Small Cap list.
