SYNACT PHARMA

Press Release
16 November 2026 16:25:00 CET

SynAct Pharma CEO has acquired shares in the company

SynAct Pharma AB (publ) ("SynAct") (Nasdaq Stockholm: SYNACT), a clinical-stage biotechnological company focused on treating inflammation through a novel therapeutic approach known as "pro-resolution", today announced that its CEO, Jeppe Øvlesen, has acquired 20,313 shares in the company.

"SynAct has an exciting future ahead, and I am very confident in the potential we are building. My investment reflects my strong belief in the company's potential and my long-term commitment to SynAct," said CEO Jeppe Øvlesen.

The shares were acquired on Nasdaq Stockholm.

About SynAct Pharma AB
SynAct Pharma AB (Nasdaq Stockholm: SYNACT) is a clinical-stage biotechnology company pioneering pro-resolution therapies for inflammation through selective activation of the melanocortin system. Its lead asset, resomelagon (AP1189), is a once-daily oral, first-in-class biased agonist of the MC1 and MC3 melanocortin receptors, that has completed Phase 2b development in rheumatoid arthritis, and is in Phase 2 development as host-directed therapy to treat inflammation caused by infections, including respiratory viral infection and dengue. Behind resomelagon, SynAct is building a broad portfolio of oral small molecule and injectable peptide melanocortin agonists designed to induce anti-inflammatory pro-resolution activity, helping patients restore immune balance.
