

BIMobject accumulated downloads surpass 100 million

BIMobject, the global marketplace for the construction industry, announces today that the number of downloaded files since the launch of bimobject.com has now surpassed 100 million.

In October, the company also set a new record for the number of downloads in a single month, with 2.98 million downloaded files. The platform now has over 100,000 products from close to 2,200 manufacturers of building products. The growth in the number of registered users has also continued and the company now has over 2.7 million registered users from all over the world.

"I want to thank all BIMobject's customers, users and employees who made this possible. I'm very pleased to announce this milestone 10 years after BIMobject was founded", comments Carl Silbersky, BIMobject's CEO. "Every second - around the clock, all year round - a digital building product is downloaded on bimobject.com and is used to build a better world. The construction industry's movement towards digitalisation and sustainability has never felt stronger than today, and this can clearly be seen in our figures."

About BIMobject

We can't go on building like we do today. BIMobject is on a mission to digitalise construction for a more sustainable future. We're a global marketplace for the construction industry, that provides architects and engineers with the information and inspiration they need to design buildings faster, smarter and greener.

With 2,000+ building product brands* and 100 of the world's top 100 architect firms among our users, we power digital building design worldwide. In 2020, the company had annual net sales of SEK 137 million.

BIMobject's shares are traded on Nasdaq First North under the ticker: BIM.
Certified Advisor: FNCA Sweden AB, info@fnca.se, +46-8-528 00 399.

** Defined as the number of unique brands (including subsidiaries with separate product ranges) with products available for download on bimobject.com.*
