Comments by the CEO

Q3 IN BRIEF

In the third quarter, net sales grew by 1.6 percent to SEK 70.6 (69.5) million. This marks a record-breaking third quarter revenue-wise and is attributed to the strong development in our subscribing client segment. Subscription revenue rose by 9.6 percent to SEK 44.7 (40.8) million, and ad hoc revenue from subscribers increased by 59.7 percent to SEK 15.3 (9.6) million. Most of the increase stems from the ever-increasing focus on our Marketing Optimization offering, where we over the years have built a great product market fit.

The results are, however, not increasing across the board. We have in the past quarters experienced a tougher market climate for certain high-margin ad hoc projects, predominantly in the UK. In the third quarter, ad hoc revenue from non-subscribers declined by 44.5 percent to SEK 10.6 (19.1) million. However, this business started picking up again during the later part of the quarter, resulting in some important wins yet to be realized. As a result of lower levels of ad hoc business and a continued weak currency development, the gross margin amounted to 73.6 (74.7) percent.

Albeit a topline record for the third quarter, the full effect of our recent cost savings is not yet visible in the results. EBIT for the third quarter amounted to SEK -0.5 (4.9) million. Excluding restructuring costs of SEK 1.1 (0.0) million, adjusted EBIT amounted to SEK 0.6 (4.9) million.

RESTORING PROFITABILITY IS A TOP PRIORITY

We have in the third quarter stuck to our plan and addressed the major challenges on the path to restored profitability. One of the bright spots has been the improved future cost position, and we are now set to beat the targeted cost base for other external costs and personnel costs of SEK 220 million in 2024. The work has been focused on rightsizing the organization while simultaneously driving efficiency improvements and a new way of working to ensure continued capacity to deliver outstanding customer value. By integrating global resources, all with broad industry experience and research methodology expertise, we can unlock previous locally focused or idle capacity much better. In addition to that, we put more focus than ever on project management, staffing, and follow-up.

Simultaneously, we have made a comprehensive review of our go-to-market approach, pricing, and packaging strategy, and put increased emphasis on business-driven product development following the recent appointment of a new Chief Product Officer. This should not be regarded as a sign of a ramped-up investment level, but rather the review and formation of a more market-driven approach. For example, Sales and Product are currently repackaging our current offering, making it easier for both clients and our employees to understand what we sell and what our scope of delivery is.

RECENT ACHIEVEMENTS

I want to take the opportunity to celebrate some recent achievements of the brilliant team at Nepa, showcasing the quality of our market insights built on our excellent research design and employees. At the ESOMAR industry congress, Nepa was awarded Dynata's 2023 RISE "Recognising Innovation in Survey Engagement" award and one of our data scientists won a silver medal for an outstanding pitch on Al and digital consumer profiles. This shows that we are on top of the latest developments in the market research industry.

OUTLOOK

In the preceding quarters, we have observed a negative sales trend that bottomed out in Q3. However, we have during the later part of the fall experienced an elevated cost pressure among our clients, resulting in slightly lower retention rates than normal. At the end of the quarter, the Annual Recurring Revenue (ARR) amounted to SEK 172.4 (168.4) million, representing a growth of 2.3 percent year-over-year, but 1.1 percent lower than Q2. Addressing churn remains a top priority, and we are actively implementing strategies to reduce attrition and enhance customer retention. Historically, Nepa has focused on expanding existing clients but lagged in attracting new ones. The change in sales focus this year has already led to several wins of major global brands with promising growth opportunities, but not enough to offset the overall decline. This sales focus will increase in 2024.

As we look ahead, we are dedicated to delivering improved profitability, and we remain firmly committed to executing our strategic plan while adapting to the ever-evolving business landscape.

Driving results for today - building brands for tomorrow

NEPA IN BRIEF

In recent years, brand has regained its position as the top of most marketers' agendas, and investments in brand-building communications have increased. While there is a plethora of technology to measure and optimize short-term performance marketing, there is a lack of similar solutions to guide brand-building efforts.

Nepa's dynamic marketing intelligence suite offers tools and solutions for consumer brands worldwide to both maximize short-term sales and build long-term brand value. By combining continuous consumer survey data, sales data, and media investment data with sophisticated analytics and marketing expertise, Nepa creates brand and marketing-related insights.

The offering includes live brand tracking dashboards, recurring campaign evaluations, and continuous media optimizations together with value-adding consultancy insights that deliver client value to CMOs and marketing departments of more than 300 wellestablished brands. With offices in the Nordics, UK, US, and India, the Group tracks brands in more than 60 markets across all continents.

BUSINESS MODEL

Nepa continuously measures and analyses the impact of all marketing activities and offers brands the insights they need to make the right decisions, at the right times, both short-term and long-term. The product offering comprises subscription contracts, bulk contracts, and advisory services on a project basis.

VALUE CREATION PROCESS

Nepa turns data into growth opportunities by combining cutting-edge technology with brilliant human analysts and researchers. The value creation process comprises everything from data collection, sampling data enrichment, and analysis using inhouse developed systems and production tools, to automated dashboard visualization or reports combined with tech-augmented brand and marketing advisory.

RESEARCH AND DEVELOPMENT

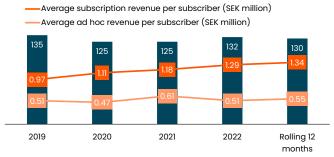

Nepa's research and development support the longterm strategy by building and improving the in-house systems, production tools, and data-delivery streams, integrating existing separate solutions into Nepa's dynamic marketing intelligence suite, and developing new products to further increase competitiveness. Shortly, the offering will expand into including cuttingedge brand modeling based on existing data.

CLIENT CONCENTRATION

Nepa has a diversified client portfolio spanning numerous industries. The five largest clients account for approximately 28 percent of the Group's net sales. Nepa serves over 300 clients every year, of which 130 have been enrolled in a subscription contract.
