

# Resurs Bank Year-end report 2025

## 1 January – 31 December 2025, compared with the same period last year\*

- Lending to the public amounted to SEK 39,104 million (39,903).
- The year was impacted by non-recurring items totalling SEK -308 million. Early in the year, was affected by an impairment of previously capitalised IT development amounting to SEK -326 million, while late in the year, brought a positive effect of SEK 19 million following clarification from the Norwegian Tax Administration.
- Operating income increased 5% and amounted to SEK 3,759 million (3,565).
- C/I before credit losses was 57.7% (46.2%) and excluding items affecting comparability 49.5% (43.4%).
- The credit loss ratio decreased to 3.0% (4.0%).
- Operating profit amounted to SEK 390 million (349), and excluding items affecting comparability SEK 698 million (460).
- The Total Capital Ratio increased and amounted to 19.7% (16.3%).
- The Common Equity Tier 1 ratio increased and amounted to 16.1% (13.9%).

## Significant events during second half year

### New agreements for corporate payment services

Resurs signed an agreement with Power covering payment services for their corporate customers. The new partnership complements our long-standing collaboration for private consumers and spans all Nordic countries, covering both in-store and online sales. The rollout of the solution will begin in Q1 2026. The partnership with Webhallen in Sweden was also extended and expanded to include payment services for corporate customers.

\*Certain performance measures provided in this section have not been prepared in accordance with IFRS or the capital adequacy rules, meaning that they are alternative performance measures. Calculations and reconciliation against information in the financial statements of these performance measures are provided on the website under "Financial reports." This report is a translation of the Swedish financial report.

This report is a translation of the Swedish financial report. In case of differences between the English and the Swedish translation, the Swedish text shall prevail.

## Resurs in brief

Resurs Bank AB operates are primarily consumer-oriented and are licensed by Finansinspektionen (The Swedish FSA). Resurs Bank AB conducts banking operations in the Nordic countries. Operations in Finland are conducted through branch office Resurs Bank AB Suomen sivuliike (Helsinki), in Denmark through branch office Resurs Bank filial af Resurs Bank (Brøndby) and in Norway through branch office Resurs Bank AB NUF (Oslo). Consumer lending is subdivided into retail finance loans, consumer loans and credit cards with MasterCard function. Retail finance loans are offered to finance both traditional in-store purchases and online purchases. Lending to corporates includes corporate loans, inventory financing, invoice factoring and invoice discounting. In addition, Resurs offers deposits in the Nordic region as well as deposits via cross-border operations in Germany, the Netherlands, Spain and Ireland.

### Payment Solutions

The Payment Solutions business segment comprises the business areas retail finance, cards and SME finance. Within retail finance, Resurs is a leading omni-partner for finance, payment and loyalty solutions in the Nordic region, for both private customers and corporates. Cards includes both the Resurs credit and cards that enable retail finance partners to promote their own brands. The SME finance area primarily focuses on corporate loans, inventory financing, invoice factoring and invoice discounting for small and mid-sized companies. Lending amounted to SEK 17.4 billion (16.9) at the end of the year 2025.

### Consumer Loans

The Consumer Loans business segment offers unsecured consumer loans. A consumer loan is normally used to finance larger purchases and investments. Consumer Loans also helps consumers to consolidate their loans, in order to reduce their monthly payments and/or interest expense. Lending in Consumer Loans amounted to SEK 21.7 billion (23.0) at the end of the year 2025.

### Employees

The number of full-time equivalent employees (FTE) within the Group totalled 757 as of 31 December 2025, an increase of three compared with 30 June 2025. Compared with the end of 2024, the number of FTEs has risen by 86. This increase is primarily attributable to additional staff within Engineering and Product & Credit.

### Risk and Capital management

The Group's ability to manage risks and conduct effective capital planning is fundamental to its profitability. The business faces various forms of risk including business risks/strategic risks, credit risks, market risks, liquidity risks and operational risks. The Board has established operational policies with the aim of balancing the Group's risk taking, and to limit and control risks. All policies are updated as necessary and revised at least once annually. The Board and CEO are ultimately responsible for risk management. A more detailed description of the bank's risks, liquidity and capital management is presented in the most recent annual report.

### Selection of merchants in Payment Solutions:

## Statement by the CEO

### Continuing to build Resurs for the future

During the period, we continued to execute on our strategy to strengthen and build Resurs for the future. A key focus area has been to further develop our established retail finance offering by also enabling companies as end customers at the merchants. I am pleased and proud that, during the fourth quarter, we signed an agreement with Power covering payment services for their corporate customers. This new partnership complements our long standing collaboration for private consumers and spans all Nordic countries, covering both in store and online sales. The rollout of the solution will begin in Q1 2026. We also extended and expanded our partnership with Webhallen in Sweden, and added payment services for corporate customers to the agreement.

Within SME Finance, we are continuing to build the next generation of corporate products. During the fourth quarter, we launched a revolving credit product targeted at companies seeking flexible and accessible financing - an important step in broadening our customer offering.

As in previous period of 2025, we maintained our long-term investment agenda to strengthen competitiveness. This includes continued development of both internal capabilities and further advancement of our technical platform. Our upgraded IT infrastructure and new core banking system create important prerequisites for automated and efficient processes as we scale new products and digital solutions. During the period, we also completed the vast majority of our transition to a fully cloud based IT environment - a foundational enabler for the years ahead.

### Strengthened earnings driven by improved credit losses

Total lending amounted to SEK 39.1 billion, a decrease of 2 per cent versus last year. Adjusted for negative currency effects, the development was stable. Payment Solutions grew 5 per cent in local currency, while we continued the deliberate reduction of the Consumer Loans book, down 3 per cent in local currency. Throughout the period, we still observed signs of economic uncertainty, which contributed to continued cautious consumer behavior. Some industries were more affected than others, resulting in lower sales volumes among certain retail finance partners.

Operating profit, adjusted for non-recurring items, increased by 52 per cent year-on-year and amounted to SEK 698 million. The improvement was mainly driven by lower credit losses, supported by improved payment patterns. Our assessment is that the credit tightening measures we implemented at the start of 2024 continue to serve us well. We also maintain a strong financial position with a total capital ratio as of 31 December 2025 amounting to 19.7 per cent, which is well above regulatory requirements of 14.1 per cent.

### Looking ahead to 2026

Today, Resurs stands as a financially strong company. Together with our owners, employees and partners, we remain firmly focused on continuing to build a robust and competitive Resurs for the future. As we enter 2026, I look forward to continuing with the same drive and focus in our work to strengthen Resurs for the future - ensuring we continue to deliver value, stability and long term growth.

Magnus Fredin  
CEO Resurs Bank

## Group Results and Significant events

### Items affecting comparability

Items affecting comparability are defined as income and expenses that are not expected to occur regularly.

#### 2025

In the second half of 2025, the Norwegian Tax Administration reassessed Resurs' case and approved deductions on a number of invoices. This results in the recovery of approximately SEK 19 million, previously charged to us due to the absence of VAT-liable operations in Norway.

In the first half year of 2025, Resurs identified an impairment requirement of SEK 326 million for capitalised IT investments. This need of impairment is a consequence of the ongoing implementation of the new strategic direction and the rapid development in society.

#### 2024

In total for the full-year 2024, items affecting comparability amounted to SEK 112 million.

### Group Result, January–December 2025\*

#### Operating income

The Group's operating income increased 5 per cent to SEK 3,759 million (3,565) due to well-balanced price adjustments. Net interest income increased 8 per cent to SEK 3,158 million (2,931). Net interest income amounted to SEK 4,393 million (4,674) and interest expense to SEK 1,235 million (1,744).

Fee & commission income amounted to SEK 540 million (543) and fee & commission expenses to SEK 69 million (79), resulting in total net commission of SEK 471 million (464). Net income from financial transactions was SEK -52 million (-46). Other operating income, mainly comprising remuneration from lending operations, amounted to SEK 181 million (217). The NBI margin amounted to 9.5 per cent (9.1 per cent).

#### Cost and credit losses

The costs increased and amounted to SEK 2,170 million (1,646), excluding items affecting comparability amounted the Group's costs before credit losses to SEK 1,862 million (1,555). Costs increased primarily in Engineering due to investments to realize our long-term strategy. Viewed in relation to the operations' income, the cost level was 57.7 per cent (46.2 per cent), excluding items affecting comparability 49.5 per cent (43.4 per cent). Credit losses declined due to improvements in customers' payment patterns. Our assessment is that the austerity measures we implemented at the start of 2024 have served us well. Credit losses decreased during the year and totalled SEK 1,199 million (1,570). The credit loss ratio was 3.0 per cent (4.0 per cent).

#### Profit

The reported operating profit for the year amounted to SEK 390 million (349). Excluding items affecting comparability, operating profit amounted to SEK 698 million (460). Tax for the period amounted to SEK 1 million (79). The lower tax expense in 2025 compared to 2024 is due to the reversal of deferred tax related to previous years. Profit after tax for the period amounted to SEK 181 million (270). The period's result

included a group contribution of SEK 200 million to the parent company. Profit excluding items affecting comparability and the group contribution amounted to SEK 584 million (375).

### Significant events during the period

#### New agreement for corporate payment services

Resurs signed an agreement with Power covering payment services for their corporate customers. The new partnership complements our long-standing collaboration for private consumers and spans all Nordic countries, covering both in-store and online sales. The rollout of the solution will begin in Q1 2026.

#### Elgiganten Denmark chooses Resurs

Elkjør Nordic, the largest electronics chain in the Nordic region, has chosen Resurs's financing solutions for Elgiganten's customers in Denmark.

#### Resurs' new strategy has led to a need for impairment of accumulated IT investments, impacting the first quarter of the year.

The ongoing implementation of the strategic direction, presented in 2024, has led to an impairment of IT investments of SEK 326 million in Q1 2025. The impairment did not affect the company's liquidity and had a slightly positive effect on Resurs capital ratios.

#### Mio extended its partnership with Resurs

The leading home furnishings chain Mio extended its long-term agreement with Resurs for financing solutions in physical stores and online. Resurs thereby further strengthens its position as a leading financing solution partner in the Nordic region.

#### NCR assigned Resurs Bank's credit rating to BBB- with a stable outlook

Following its annual review in mid-March, the credit rating institute Nordic Credit Rating, NCR, has assigned Resurs Bank's credit rating at BBB- (stable outlook). The adjustment from the previous BBB (negative outlook) has been made as a result of the higher level of credit losses.

#### Resurs Bank issued senior unsecured bonds

In line with Resurs's strategy of long-term diversified financing, Resurs Bank issued beginning of March senior unsecured bonds of SEK 500 million and NOK 200 million.

#### After the end of the period

No significant events after end of the period.

\*See page 1

## Financial position on 31 December 2025

Comparative figures in this section refer to 31 December 2024.

The Group's financial position is strong and on 31 December 2025, the capital base amounted to SEK 6,753 million (5,872) in the consolidated situation, comprising the Parent Company, Resurs Holding and the Resurs Bank Group.

The total capital ratio was 19.7 per cent (16.3 per cent) and the Common Equity Tier 1 ratio was 16.1 per cent (13.9 per cent). The regulatory capital requirement on 31 December 2025 amounted to 9.8 per cent for the Common Equity Tier 1 ratio and 14.1 per cent for the total capital ratio.

Lending to the public on 31 December 2025 amounted to SEK 39,104 million (39,903), a decrease of 2 per cent. The distribution of lending on 31 December 2025 was as follows: Sweden 59 per cent, Norway 10 per cent, Finland 19 per cent and Denmark 12 per cent.

In addition to capital from shareholders and bond investors, the operations are financed by deposits from the public. The Group is working on various sources of financing in order to have diversified and cost-effective financing in place at any given time.

On 31 December 2025, deposits from the public totalled SEK 34,326 million (39,852) and decreases, in particular, as a result of a controlled termination of the deposit cooperation with Avanza. The bank has deposits in SEK, NOK and EUR. Financing through issued securities totalled SEK 6 030 million (4,993).

Liquidity remained extremely healthy and the liquidity coverage ratio (LCR) was 278 per cent (478 per cent) in the consolidated situation. The minimum statutory LCR is 100 per cent.

Cash and balances at central banks on 31 December 2025 amounted to SEK 2,515 million (4,763). Lending to credit institutions on 31 December 2025 amounted to SEK 2,506 million (2,803). Holdings of treasury and other bills eligible for refinancing, as well as bonds and other interest-bearing securities, totalled SEK 3,351 million (3,626). The Group has a high level of liquidity for meeting its future commitments.

Intangible assets amounted to SEK 1,674 million (2,121) and primarily comprised the goodwill that arose in the acquisition of Finaref and Danaktiv in 2014, and yA Bank in 2015. The decrease compared with the previous year is primarily attributable to the write-down of capitalised IT investments carried out in March 2025.

Cash flow from operating activities amounted to SEK -4,044 million (2,727). Cash flow from deposits amounted to SEK -5,471 million (-3,709) and the net change in investment assets totalled SEK 182 million (-53). Cash flow from investing activities for the period totalled SEK -9 million (-116). Cash flow from financing activities totalled SEK 1,329 million (-969).

# Notes to the condensed financial statements

## G1. Accounting principles

The Group's interim report has been prepared in accordance with IAS 34 Interim Financial Reporting and with applicable provisions of the Swedish Annual Accounts Act for Credit Institutions and Securities Companies, the Swedish Financial Supervisory Authority's regulations and general guidelines on Annual Reports in Credit Institutions and Securities Companies (FFFS 2008:25), and the Swedish Financial Reporting Board's recommendation RFR 1 Supplementary Accounting Rules for Groups.

No new IFRS or IFRIC interpretations, effective as from 1 January 2024, have had any material impact on the Group.

For detailed accounting principles for the Group, see the Annual report for 2023.

The regulatory consolidation (known as "consolidated situation") comprises the Resurs Bank AB Group and its Parent Company Resurs Holding AB.

The interim information on pages 3-32 comprises an integrated component of this financial report.

## G2. Financing - Consolidated situation

A core component of financing efforts is maintaining a well-diversified financing structure with access to several sources of financing. Access to a number of sources of financing means that it is possible to use the most appropriate source of financing at any particular time.

The largest type of financing is deposits from the public. This type of financing is offered to customers in several countries. Deposits, which are analysed on a regular basis, totalled SEK 34,195 million (39,772). The lending to the public/deposits from the public ratio for the consolidated situation is 114 per cent (100 per cent).

There is a funding programme for issuing bonds, the programme amounts to SEK 10,000 million (10,000). Resurs has acted both on the Swedish and Norwegian markets. At December 31 the program has six outstanding bonds at a nominal amount of SEK 2,000 million (1,100) and NOK 800 million (200). Of the six bonds, four are senior unsecured bonds and two are subordinated loan (T2) of SEK 700 million (300).

Resurs Holding has issued two Additional Tier 1 Capital instruments of nominal SEK 600 million (600).

Resurs Bank has an official credit rating from the rating company Nordic Credit Rating (NCR). Access to Nordic Credit Ratings analyses can be found on the website [www.nordiccreditrating.com](http://www.nordiccreditrating.com).

Resurs Bank has completed a securitisation of loan receivables, a form of structured financing, referred to as Asset Backed Securities (ABS). This takes place by transferring loan receivables to Resurs Bank's wholly owned subsidiaries Resurs Consumer Loans 1 Limited. This financing has been arranged with JP Morgan Chase Bank. Resurs Bank has for a rolling period of 18 months (revolving period), the right to continue sale of certain additional loan receivables to Resurs Consumer Loans. At December 31 a total of approximately SEK 4.9 billion in loan receivables had been transferred to Resurs Consumer Loans. Resurs Bank and Resurs Consumer Loans have provided security for the assets that form part of the securitisation. At the balance sheet date, the external financing amounted to SEK 4.0 billion (4.0) of the ABS financing.

The minimum requirement for the structural liquidity measure Net Stable Funding Ratio (NSFR) is that the ratio must amount to at least 100%. The requirement states that there should be sufficient stable funding over a one-year horizon under normal and stressed conditions. For the consolidated situation the ratio on balance sheet day is 110% (108%).

## Liquidity - Consolidated situation

Liquidity risk includes the risk of not being able to meet liquidity obligations without significantly higher costs. The consolidated situation, must maintain a liquidity reserve and have access to an unutilised liquidity buffer in the event of irregular or unexpected liquidity flows.

The Group's liquidity risk is managed through policies that define limits, responsibilities, monitoring procedures and include a contingency plan. The purpose of the contingency plan is to prepare for various courses of actions if the liquidity situation trend unfavorably. The contingency plan includes, among other components, risk indicators and predefined action plans. The Group's liquidity risk is controlled and audited by independent functions.

The Group's liquidity consists of both a liquidity reserve and an additional liquidity portfolio, which are monitored daily. The primary liquidity risk is considered to be a scenario in which multiple depositors simultaneously withdraw their deposited funds. An internal model is used to set minimum required liquidity reserve, calculated based on deposit volumes, the proportion covered by deposit insurance and the maturity profile of issued securities. The Board has stipulated that the liquidity reserve may never fall below SEK 1,500 million. In addition to this reserve, there is an intraday liquidity requirement of at least 4 per cent of deposits from the public, with a minimum of SEK 1,000 million. There are also other liquidity requirements regulating and controlling the business.

The liquidity reserve totalled SEK 2,458 million (2,632), is in accordance with Swedish Financial Supervisory Authority regulations on liquidity risk management (FFFS 2010:7) and applicable amendments for the consolidated situation. The assets included are segregated, unencumbered, and of high quality, with the majority carrying the highest credit ratings.

In addition to the liquidity reserve, the consolidated situation holds other liquid assets, primarily cash at central banks or balances with other banks. These assets are also of high credit quality and amounted to SEK 5,299 million (7,806) for the consolidated situation. Accordingly, total liquidity amounted to SEK 7,758 million (10,438), corresponding to 23 per cent (26 per cent) of deposits from the public. The Group also has unutilised credit facilities of NOK 50 million (50).

The Liquidity Coverage Ratio (LCR) for the consolidated situation is reported monthly to the authorities. The LCR measures the ratio between high qualitative assets and net outflow during a 30-day stressed period. A ratio of 100 per cent means the assets managed the stress test scenario and is also the authority's limit. As of December 31 the LCR for the consolidated situation is 278 per cent (478 per cent). For the period January to December 2025, the average LCR was 336 per cent for the consolidated situation.

All valuations of interest-bearing securities were made at market values that take into account accrued interest.

## Summary of liquidity – Consolidated situation

SEK thousand	31 Dec 2025	31 Dec 2024
<b>Liquidity reserve as per FFFS 2010:7 definition</b>		
Securities or guaranteed by sovereigns, central banks, MDBs and international org.	385,071	424,361
Securities issued by municipalities	1,154,725	1,130,565
Lending to credit institutions	-	20,000
Bonds and other interest-bearing securities	918,665	1,056,750
<b>Summary Liquidity reserve as per FFFS 2010:7</b>	<b>2,458,461</b>	<b>2,631,676</b>
<b>Other liquidity portfolio</b>		
Cash and balances at central banks	2,650,266	4,762,556
Securities or guaranteed by sovereigns, central banks, MDBs and international org.	50,839	-
Securities issued by municipalities	201,114	202,193
Lending to credit institutions	2,397,009	2,841,551
<b>Total other liquidity portfolio</b>	<b>5,299,228</b>	<b>7,806,300</b>
<b>Total liquidity portfolio</b>	<b>7,757,689</b>	<b>10,437,976</b>
<b>Other liquidity-creating measures</b>		
Unutilised credit facilities	45,740	48,485

Stress tests are carried out on a regular basis to ensure that there is liquidity in place for circumstances that deviate from normal conditions. One recurring stress test is significant outflows of deposits from the public.

In evaluating liquid assets for LCR reporting, the following assessment of liquid asset quality is made before each value judgement in accordance with the EU Commission's delegated regulation (EU) 575/2013.

### G3. Capital adequacy - Consolidated situation

Capital requirements are calculated in accordance with European Parliament and Council Regulation EU 575/2013 (CRR) and Directive 2013/36 EU (CRD IV). The Directive was incorporated via the Swedish Capital Buffers Act (2014:966), and the Swedish Financial Supervisory Authority's (SFSA) regulations regarding prudential requirements and capital buffers (FFFS 2014:12). The capital requirement calculation below comprises the statutory minimum capital requirement for credit risk, credit valuation adjustment risk, market risk and operational risk.

In 2023, the Swedish Financial Supervisory Authority carried out a Supervisory Review and Evaluation Process (SREP) regarding specific own funds requirements and Pillar 2 guidance. They decided that the consolidated situation should meet a specific own funds requirement for credit risk, interest risk and other market risks, of 1.87 per cent of the total risk-weighted exposure amount. The consolidated situation should meet a Pillar 2 guidance on leverage ratio of 0.5 per cent of the total exposure amount regarding leverage ratio.

The combined buffer requirement for Resurs comprises a capital conservation buffer and a countercyclical capital buffer. The capital conservation buffer requirement amounts to 2.5 per cent of the risk weighted assets. The countercyclical capital buffer requirement is weighted according to geographical requirements and amounts to 1.7 per cent. In December 31, 2025 Sweden has counter-cyclical buffer requirements of 2 per cent, Norway 2.5 per cent and Denmark 2.5 per cent. Finland's countercyclical buffer requirement remains unchanged at 0 per cent.

The consolidated situation calculates the capital requirement for credit risk, credit rating adjustment risk, market risk and operational risk. Credit risk is calculated by applying the standardised method under which the asset items of the consolidated situation are weighted and divided between 17 different exposure classes. The total risk-weighted exposure amount is multiplied by 8 per cent to obtain the minimum capital requirement for credit risk.

The capital requirement for operational risk is calculated with the Business Indicator Component (BIC) approach. With this approach, several components are calculated and added to a Business Indicator (BI). The size of the BI stipulates an alpha coefficient, which multiplied with the BI gives the BIC, which is the capital requirement for the operational risk. The counterparty risk is calculated using the simplified standardised method. External rating companies are used to calculate the consolidated situation's capital base requirement for bonds and other interest-bearing securities.

In December 2019, December 2023 and September 2024, Resurs Holding AB issued Additional Tier 1 Capital of a nominal SEK 300 million each. The notes have a perpetual tenor with a first call option after five years and a temporary write-down mechanism. The Tier 1 capital injection issued in September 2024 intends to replace existing Tier 1 capital instrument issued in December 2019, which was redeemed early, in December 2024.

- of which, countercyclical buffer requirement, %	1.7	1.7
Common Equity Tier 1 capital available for use as buffer after meeting the total own funds requirements, %	9.8	6.4

## Leverage ratio

The leverage ratio is a non-risk-sensitive capital requirement defined in Regulation (EU) no 575/2013 of the European Parliament and of the Council. The ratio states the amount of equity in relation to the bank's total assets including items that are not recognised in the balance sheet and is calculated by the Tier 1 capital as a percentage of the total exposure measure.

In addition to legal requirements of 3 per cent according to CRR II, Resurs should also hold an additional 0,5 per cent in leverage ratio according to a decision made by the Financial Supervisory Authority after their conducted review and evaluation.

SEK thousand	31 Dec 2025	31 Dec 2024
Tier 1 capital	6,137,345	5,619,742
Leverage ratio exposure	50,489,803	54,475,597
Leverage ratio, %	12.2	10.3
Leverage ratio requirement Pillar 1, %	3.0	3.0

Total leverage ratio requirement including Pillar 2 guidance, %	3.5	3.5

## G4. Segment reporting

The CEO of Resurs Holding AB is the chief operating decision maker for the Group. Management has established segments based on the information that is dealt with by the Board of Directors and used as supporting information for allocating resources and evaluating results. The CEO assesses the performance of Payment Solutions and Consumer Loans.

The CEO evaluates segment development based on net operating income less credit losses, net.

Segment reporting is based on the same principles as those used for the consolidated financial statements. Assets monitored by the CEO refer to lending to the public.

During H2 2024 the updated LGD model, which is part of Resurs credit reservation model, has resulted in an increase in credit losses of SEK 219 million in Consumer Loans and a decrease of SEK 188 million in Payment Solutions.

## G9. Items affecting comparability

Items affecting comparability are defined as income and expenses that are not expected to occur regularly.

### 2025

Impairment of capitalised IT investments of SEK 326 million

Reversal of the IT cost item of SEK 19 million, which related to non-deductible VAT in Norway

### 2024

During H2 the item "Net income from financial transactions" includes a cost affecting comparability of SEK 21 million comprising a revaluation of shares of SEK 13 million and change of control costs due to the change in Resurs's ownership structure of SEK 8 million. The item "IT costs" was impacted by a cost of SEK 19 million for a provision of non-deductible VAT. In June, the Administrative Court of appeal approved Finansinspektionen's appeal against the Administrative court's, which increased costs by SEK 50 million during late H2 2024.

In June, the Administrative Court of appeal approved Finansinspektionen's appeal against the Administrative court's, which increased costs by SEK 50 million during late H2 2024. General administration costs were affected by an item affecting comparability of SEK -23 million during the beginning of the year, which stems from the efficiency initiative process that began during the beginning of the year.

# Financial instruments

## Determination of fair value of financial instruments

### Level 1

Listed prices (unadjusted) on active markets for identical assets or liabilities.

### Level 2

Inputs that are observable for the asset or liability other than listed prices included in Level 1, either directly (i.e., as price quotations) or indirectly (i.e., derived from price quotations).

### Level 3

Inputs for the asset or liability that are not based on observable market data (i.e., unobservable inputs).

## Financial instruments measured at fair value for disclosure purposes

The carrying amount of variable rate deposits and borrowing from the public is deemed to reflect fair value.

For fixed rate deposits and borrowing from the public, fair value is calculated based on current market rates, with the initial credit spread for deposits kept constant. Fair value has been classified as level 2.

Fair value of subordinated debt is calculated based on valuation at the listing marketplace. Fair value has been classified as level 1.

Fair value of issued securities (MTN) is calculated based on the listing marketplace. Fair value has been classified as level 1.

For issued securities (ABS), fair value is calculated by assuming that duration ends at the close of the revolving period. Fair value has been classified as level 3.

The fair value of the portion of lending that has been sent to debt recovery and purchased non-performing consumer loans is calculated by discounting calculated cash flows at the estimated market interest rate instead of at the original effective interest rate. Fair value has been classified as level 2.

The carrying amount of current receivables and liabilities and variable rate loans is deemed to reflect fair value.

## Transfer between levels

There has not been any transfer of financial instruments between the levels.

## Financial assets and liabilities that are offset or subject to netting agreements

Derivative agreement has been made under the ISDA agreement. The amounts are not offset in the statement of financial position. Most of the derivatives at 31 December 2025 were covered by the ISDA Credit Support Annex, which means that collateral is obtained and provided in the form of bank deposits between the parties.

Assets for the derivative agreements total to SEK 16 million (23), while liabilities total SEK 23 million (18). Collateral corresponding to SEK33 million (20) and SEK 0 million (9) was received. The net effect on loans to credit institutions total SEK 33 million (20) and liabilities to credit institutions total SEK 0 million (9).

## Deposits with the Riksbank

During the year, the Riksbank decided to introduce a requirement for interest-free deposits of a portion of credit institutions' deposit base. For Resurs, this entails that SEK 135 million has been placed as a deposit with the Riksbank.

## Definitions

### **C/I before credit losses <sup>1)</sup>**

Expenses before credit losses in relation to operating income.

### **Capital base <sup>2)</sup>**

The sum of Tier 1 capital and Tier 2 capital.

### **Common equity tier 1 capital <sup>2)</sup>**

Common Equity Tier 1 capital comprises share capital, paid-in capital, retained earnings and other reserves of the companies included in the consolidated situation.

### **Credit loss ratio, % <sup>1)</sup>**

Net credit losses in relation to the average balance of loans to the public.

### **Core tier 1 ratio, % <sup>2)</sup>**

Core Tier 1 capital in relation to risk-weighted amount as per the Swedish Financial Supervisory Authority's directive.

### **Lending to the public, excl. exchange rate differences <sup>1)</sup>**

Operating income in relation to the average balance of lending to the public.

### **NBI-margin, % <sup>1)</sup>**

Operating income in relation to the average balance of lending to the public.

### **Net interest income/expense <sup>1)</sup>**

Interest income less interest expenses, see note G5.

### **Items affecting comparability <sup>1)</sup>**

Items deemed to be of a one-off nature, meaning individual transactions, to facilitate the comparison of profit between periods, items are identified and recognised separately since they are considered to reduce comparability.

### **NIM, % <sup>1)</sup>**

Interest income less interest expenses in relation to average balance of lending to the public.

### **Return on equity, (ROE), % <sup>1)</sup>**

Profit for the period as a percentage of average equity.

### **Return on equity excl. Intangible fixed assets, (ROTE), % <sup>1)</sup>**

Profit for the period as a percentage of average equity less intangible fixed assets.

### **Tier 1 capital <sup>2)</sup>**

Tier 1 capital comprises Common Equity Tier 1 capital and other Tier 1 capital.

### **Risk adjusted NBI-margin, % <sup>1)</sup>**

NBI-margin adjusted for credit loss ratio.

### **Tier 2 capital <sup>2)</sup>**

Tier 2 capital comprises dated or perpetual subordinated loans.

### **Total capital ratio, % <sup>2)</sup>**

Total capital in relation to risk-weighted amount as per the Swedish Financial Supervisory Authority's directive, see note G3.

<sup>1)</sup> Alternative performance measures used by management and analysts to assess the Group's performance and are not defined in International Financial Reporting Standards (IFRS) or in the capital adequacy rules. Management believes that the performance measures make it easier for investors to analyse the Group's performance. Calculations and reconciliation against information in the financial statements of these performance measures are provided on the website under "Financial reports."

<sup>2)</sup> Key ratios according to capital adequacy rules, referring to the consolidated situation comprises the Resurs Bank AB Group and its Parent Company Resurs Holding AB.

<sup>1)</sup> Investment assets are comprised of bonds and other interest-bearing securities, treasury and other bills eligible for refinancing, subordinated debt and shares and participating interest.

<sup>2)</sup> Liquid assets are comprised of lending to credit institutions and cash and balances at central banks.

## P1. Accounting principles

The Parent Company's interim report has been prepared in accordance with the Swedish Annual Accounts Act for Credit Institutions and Securities Companies and the Swedish Financial Supervisory Authority's regulations and general guidelines on Annual Reports in Credit Institutions and Securities Companies (FFFS 2008:25). The same accounting and valuation policies were applied as in the latest annual report.

## P2. Financing

A core component of financing efforts is maintaining a well-diversified financing structure with access to several sources of financing. Access to a number of sources of financing means that it is possible to use the most appropriate source of financing at any particular time.

The largest type of financing is deposits from the public. This type of financing is offered to customers in several countries. Deposits, which are analysed on a regular basis, totalled SEK 34,326 million (39,853). The lending to the public/deposits from the public ratio is 114 per cent (100 per cent).

There is a funding programme for issuing bonds, the programme amounts to SEK 10,000 million (10,000). Resurs Bank has acted both on the Swedish and Norwegian markets. At December 31 2025 Resurs Bank has five outstanding bonds at a nominal amount of SEK 1,600 million (1,100) and NOK 800 million (200). Of the five bonds, four are senior unsecured bonds and one is a subordinated loan (T2) of SEK 300 million (300).

Resurs Bank has an official credit rating from the rating company Nordic Credit Rating (NCR). Access to Nordic Credit Ratings analyses can be found on the website [www.nordiccreditrating.com](http://www.nordiccreditrating.com).

Resurs Bank has completed a securitisation of loan receivables, a form of structured financing, referred to as Asset Backed Securities (ABS). This takes place by transferring loan receivables to Resurs Bank's wholly owned subsidiaries Resurs Consumer Loans 1 Limited. This financing has been arranged with JP Morgan Chase Bank. Resurs Bank has for a rolling period of 18 months (revolving period), the right to continue sale of certain additional loan receivables to Resurs Consumer Loans. At December 31 a total of approximately SEK 4.9 billion in loan receivables had been transferred to Resurs Consumer Loans. Resurs Bank and Resurs Consumer Loans have provided security for the assets that form part of the securitisation. At the balance sheet date, the external financing amounted to SEK 4.0 billion (4.0) of the ABS financing.

The minimum requirement for the structural liquidity measure Net Stable Funding Ratio (NSFR) is that the ratio must amount to at least 100%. The requirement states that there should be sufficient stable funding over a one-year horizon under normal and stressed conditions. For Resurs Bank the ratio on balance sheet day is 110% (109%).

## Liquidity

Liquidity risk includes the risk of not being able to meet liquidity obligations without significantly higher costs. Resurs Bank AB must maintain a liquidity reserve and have access to an unutilised liquidity buffer in the event of irregular or unexpected liquidity flows.

Liquidity risk is managed through policies that define limits, responsibilities, monitoring procedures and include a contingency plan. The purpose of the contingency plan is to prepare for various courses of actions if the liquidity situation trend unfavourably. The contingency plan includes, among other components, risk indicators and predefined action plans. The liquidity risk is controlled and audited by independent functions.

Liquidity consists of both a liquidity reserve and an additional liquidity portfolio, which are monitored daily. The primary liquidity risk is considered to be a scenario in which multiple depositors simultaneously withdraw their deposited funds. An internal model is used to set minimum required liquidity reserve, calculated based on deposit volumes, the proportion covered by deposit insurance and the maturity profile of issued securities. The Board has stipulated that the liquidity reserve may never fall below SEK 1,500 million. In addition to this reserve, there is an intraday liquidity requirement of at least 4 per cent of deposits from the public, with a minimum SEK 1 000 million. There are also other liquidity requirements regulating and controlling the business.

The liquidity reserve, totalling SEK 2,458 million (2,632), is in accordance with Swedish Financial Supervisory Authority regulations on liquidity risk management (FFFS 2010:7) and applicable amendments thereto. The assets included are segregated, unencumbered, and of high quality, with the majority carrying the highest credit ratings.

In addition to the liquidity reserve, Resurs Bank holds other liquid assets, primarily cash at central banks or balances with other banks. These assets are also of high credit quality and amounted to SEK 5,097 million (7,575). Accordingly, total liquidity amounted to SEK 7,555 million (10,207), corresponding to 22 per cent (26 per cent) of deposits from the public. There are also unutilised credit facilities of NOK 50 million (50).

The Liquidity Coverage Ratio (LCR) is reported monthly to the authorities. The LCR measures the ratio between high qualitative assets and net outflow during a 30-day stressed period. A ratio of 100 per cent means the assets managed the stress test scenario and is also the authority's limit. As of December 31 the ratio is 247 per cent (419 per cent). For the period January to December 2025, the average LCR was 316 per cent.

All valuations of interest-bearing securities were made at market values that take into account accrued interest.

## Summary of liquidity

SEK thousand	31 Dec 2025	31 Dec 2024
<b>Liquidity reserve as per FFFS 2010:7 definition</b>		
Securities or guaranteed by sovereigns, central banks, MDBs and international org.	385,071	424,361
Securities issued by municipalities	1,154,725	1,130,565
Lending to credit institutions	-	20,000
Bonds and other interest-bearing securities	918,665	1,056,750
<b>Summary Liquidity reserve as per FFFS 2010:7</b>	<b>2,458,461</b>	<b>2,631,676</b>
<b>Other liquidity portfolio</b>		
Cash and balances at central banks	2,650,266	4,762,556
Securities or guaranteed by sovereigns, central banks, MDBs and international org.	50,839	-
Securities issued by municipalities	201,114	202,193
Lending to credit institutions	2,194,368	2,610,543
<b>Bonds and other interest-bearing securities</b>	<b>5,096,587</b>	<b>7,575,292</b>
<b>Total liquidity portfolio</b>	<b>7,555,048</b>	<b>10,206,968</b>
<b>Other liquidity-creating measures</b>		
Unutilised credit facilities	45,740	48,485

Stress tests are carried out on a regular basis to ensure that there is liquidity in place for circumstances that deviate from normal conditions. One recurring stress test is significant outflows of deposits from the public.

In evaluating liquid assets for LCR reporting, the following assessment of liquid asset quality is made before each value judgement in accordance with the EU Commission's delegated regulation (EU) 575/2013.

### P3.Capital adequacy

Capital requirements are calculated in accordance with European Parliament and Council Regulation EU 575/2013 (CRR) and Directive 2013/36 EU (CRD IV). The Directive was incorporated via the Swedish Capital Buffers Act (2014:966), and the Swedish Financial Supervisory Authority's (SFSA) regulations regarding prudential requirements and capital buffers (FFFS 2014:12). The capital requirement calculation below comprises the statutory minimum capital requirement for credit risk, credit valuation adjustment risk, market risk and operational risk.

In 2023, the Swedish Financial Supervisory Authority carried out a Supervisory Review and Evaluation Process (SREP) regarding specific own funds requirements and Pillar 2 guidance. They decided that the consolidated situation should meet a specific own funds requirement for credit risk, interest risk and other market risks, of 1.87 per cent of the total risk-weighted exposure amount. The consolidated situation should meet a Pillar 2 guidance on leverage ratio of 0.5 per cent of the total exposure amount regarding leverage ratio.

The combined buffer requirement for Resurs comprises a capital conservation buffer and a countercyclical capital buffer. The capital conservation buffer requirement amounts to 2.5 per cent of the risk weighted assets. The countercyclical capital buffer requirement is weighted according to geographical requirements and amounts to 1.7 per cent. In December 31, 2025 Sweden has counter-cyclical buffer requirements of 2 per cent, Norway 2.5 per cent and Denmark 2.5 per cent. Finland's countercyclical buffer requirement remains unchanged at 0 per cent.

The consolidated situation calculates the capital requirement for credit risk, credit rating adjustment risk, market risk and operational risk. Credit risk is calculated by applying the standardised method under which the asset items of the consolidated situation are weighted and divided between 17 different exposure classes. The total risk-weighted exposure amount is multiplied by 8 per cent to obtain the minimum capital requirement for credit risk.

The capital requirement for operational risk is calculated with the Business Indicator Component (BIC) approach. With this approach, several components are calculated and added to a Business Indicator (BI). The size of the BI stipulates an alpha coefficient, which multiplied with the BI gives the BIC, which is the capital requirement for the operational risk. The counterparty risk is calculated using the simplified standardised method. External rating companies are used to calculate the consolidated situation's capital base requirement for bonds and other interest-bearing securities.

<b>Total capital requirement</b>	<b>4,834,220</b>	<b>14.1</b>	<b>5,093,411</b>	<b>14.1</b>
<b>Total capital base</b>	<b>6,679,176</b>	<b>19.4</b>	<b>6,042,333</b>	<b>16.7</b>

## Capital ratio and capital buffers

	31 Dec 2025	31 Dec 2024
Common Equity Tier 1 ratio, %	18.6	15.9
Tier 1 ratio, %	18.6	15.9
Total capital ratio, %	19.4	16.7
Institution specific buffer requirements, %	4.2	4.2
- of which, capital conservation buffer requirement, %	2.5	2.5
- of which, countercyclical buffer requirement, %	1.7	1.7
Common Equity Tier 1 capital available for use as buffer after meeting the total own funds requirements, %	9.6	6.9

## Leverage ratio

The leverage ratio is a non-risk-sensitive capital requirement defined in Regulation (EU) no 575/2013 of the European Parliament and of the Council. The ratio states the amount of equity in relation to the bank's total assets including items that are not recognised in the balance sheet and is calculated by the Tier 1 capital as a percentage of the total exposure measure.

In addition to legal requirements of 3 per cent according to CRR II, Resurs should also hold an additional 0,5 per cent in leverage ratio according to a decision made by the Financial Supervisory Authority after their conducted review and evaluation.

SEK thousand	31 Dec 2025	31 Dec 2024
Tier 1 capital	6,379,635	5,743,001
Leverage ratio exposure	50,381,367	54,444,310
Leverage ratio, %	12.7	10.5
Leverage ratio requirement Pillar 1, %	3.0	3.0
Pillar 2 guidance, %	0.0	0.0
Total leverage ratio requirement including Pillar 2 guidance, %	3.0	3.0

## P4. Pledged assets, contingent liabilities and commitments

SEK thousand	31 Dec 2025	31 Dec 2024
<b>Collateral pledged for own liabilities</b>		
Lending to credit institutions	95,756	113,067
Lending to the public <sup>1)</sup>	4,943,410	4,941,130
Restricted bank deposits <sup>2)</sup>	72,318	73,984
<b>Total collateral pledged for own liabilities</b>	<b>5,111,484</b>	<b>5,128,181</b>
<b>Contingent liabilities</b>	<b>0</b>	<b>0</b>
<b>Other commitments</b>		
Unutilised credit facilities granted	21,394,634	21,080,448
<b>Total Other commitments</b>	<b>21,394,634</b>	<b>21,080,448</b>

<sup>1)</sup> Refers to securitisation.

<sup>2)</sup> As of 31 December 2025, SEK 71,122 thousand (72,369) refers mainly to a reserve requirement account at Finland's Bank.
