

LifeClean Partners with Arxada for Exclusive Distribution in the European Healthcare Segment

LifeClean International AB (publ), a leading provider of cleaning and hygiene solutions, is pleased to announce a new distribution deal with Arxada, a global leader in science-based specialty chemicals. Under this agreement, Arxada will purchase LifeClean's disinfection products and distribute them under their own brand name as an independent contractor. The partnership grants Arxada exclusivity for a term of five years, to commercialize and distribute within the European healthcare market to the following countries: European Union, Switzerland, Great Britain, Northern Ireland, and Ukraine. This mutually advantageous agreement allows LifeClean to increase distribution by gaining entry to new markets, fostering future growth and development.

"Arxada is an ideal partner for LifeClean as they are industry leaders in the area of disinfection and have established expertise in regulatory and sales channels within relevant supply chains targeting European healthcare. This partnership will be able us to reach a large number of customers in a most cost-effective way", says Anders Lundström, Interim CEO of LifeClean International AB.

"We are pleased to join forces with LifeClean on this exciting collaboration," says Uwe Holland, BU Head of Europe Professional Hygiene, Arxada. Our customers in Hygiene are looking for safe, efficacious, and fully compliant solutions for infection prevention. In partnership with LifeClean, Arxada extends its already expansive Microbial Control Solutions portfolio with LifeClean's complementary and highly effective disinfection technology. We are excited to provide our customers with an additional, differentiated solution, bringing products to market that help make our world healthier."

The distribution deal between LifeClean and Arxada is expected to drive growth and strengthen positions in the global hygiene industry. Both companies are committed to delivering exceptional products and services that prioritize health, safety, and sustainability.

About LifeClean International:

LifeClean International was founded in 2012 and is listed on Nasdaq First North Growth Market (ticker: LCLEAN). The Group offers sustainable disinfection, remediation, and cleaning solutions that address several of our significant challenges, such as antimicrobial resistance, infection prevention, and PFAS contamination. Among other achievements, we are responsible for the world's first climate-neutral chemical production, the world's most economical laundry detergent, and a unique, patented, and more environmentally adaptable chemical formula based on chlorine dioxide. The chemical technology forms the basis for a proven effective method for PFAS remediation and is also verified as spore-, fungus-, biofilm-, bacteria-, and virus-killing surface disinfection. The group operates two production facilities in Sweden, certified according to ISO 13485, and ISO 14001 and ISO 9001, respectively.

This information is information that LifeClean International is obliged to make public pursuant to the EU Market Abuse Regulation. The information was submitted for publication, through the agency of the contact persons set out above, at 2024-01-12 08:30 CET.
