

Q3 2022 | Interim report
January-September 2022

Increased revenues - profitability negatively impacted by non-recurring factors

On February 22, 2022, Cavotec signed an agreement to divest 100% of the Airports business to US based investment company Fernweh Group. On July 29, 2022, Cavotec completed the divestment of the Airports business. As a result of the divestment, the Airports business is reported as a discontinued operation.

JULY–SEPTEMBER 2022 NEW CAVOTEC (EXCL. DISCONTINUED)

- Order backlog increased 65.8% compared to Q321 to EUR 153.9 million
- Revenues increased 43.5 % to EUR 42.0 million (29.2)
- EBIT decreased to EUR -0.4 million (0.2), corresponding to a margin of -1.1% (0.8 %)

JANUARY–SEPTEMBER 2022 NEW CAVOTEC (EXCL. DISCONTINUED)

- Revenues increased 19.8% to EUR 101.0 million (84.4)
- EBIT decreased to EUR -2.9 million (0.9), corresponding to a margin of -2.8% (1.1%)

JULY–SEPTEMBER 2022 TOTAL (INCL. DISCONTINUED)

- Net result for the group was EUR -3.0 million (1.2), of which EUR -5.1 million attributable to the discontinued operations of the Airports business

JANUARY–SEPTEMBER 2022 TOTAL (INCL. DISCONTINUED)

- Net result for the group was EUR -6.3 million (-0.7), of which EUR -9.8 million attributable to the discontinued operations of the Airports business
- Net debt amounted to EUR 23.9 million (Q222: 25.3)

Unless otherwise stated, figures in brackets refer to the same period in the preceding year

Key events during the quarter

- On July 29, 2022, Cavotec announced that it had completed the sale of its Airports business, Dabico Airport Solutions, to US-based investment company Fernweh Group LLC. The transaction was announced in February 2022. The Airports business accounted for approximately 25 per cent of Cavotec's revenue in 2021.

Key events after the end of the quarter

- Considering the impact of the completion of the sale of the Airports business, the lenders agreed to waive compliance with the financial covenants of the Credit Facility Agreement for the testing period ending on September 30, 2022 and December 31, 2022.

Comment from the CEO

Still unsatisfactory profitability, despite stronger revenues

In the third quarter, New Cavotec's revenues increased almost 44% to EUR 42.0 million compared to the same period last year. The strong development is partly explained by a capacity ramp up in Shanghai, which meant that we could catch up on Covid related delays. During the quarter we reduced the backlog of delayed orders by EUR 7 million, down to EUR 3 million and we expect to reduce it further.

However, during the quarter, the profitability in New Cavotec was very unsatisfactory. This has been impacted by several different factors. Starting in 2021 we invested in our organisation for growth, which is not yet in sync with revenues. We added net 65 people in the past twelve months. Existing orders with low margins also had a negative effect on our profitability. In addition, there were material cost increases, increased transportation costs and supply chain constraints, which were not fully compensated for in time. Furthermore, there were one-off costs of EUR 1.0 million arising from the departure of the prior CEO.

In total, the above factors lead to an EBIT in New Cavotec in the third quarter amounting to EUR -0.4 million (0.2).

Completing the divestment of the Airports business was a strategically important achievement. However, it took more time to complete than anticipated, leading to higher transaction costs and additional impairment. The group results for the quarter include a loss from discontinued operations of EUR 5.1 million.

The combination of lower profitability in New Cavotec's core business (Ports & Maritime, Industry and Services) and the one-off impact of the divestment led to Cavotec requesting, and our lenders subsequently agreeing, to waive compliance with covenants in both the third and fourth quarters of 2022.

Looking at the overall development of New Cavotec's core business, there was an increase in shipyards building new ships with on ship shore power. To electrify new ships is almost a prerequisite in today's shipping market, due to increasing legislation and demand for sustainable solutions. Going forward, we expect a strong outlook in our retrofit business to install shore power on existing container vessels, driven by an increasing demand on international shipping companies to be able to switch off their diesel power in ports. In addition, during the quarter we have won an order for close to EUR 5 million for a MoorMaster NxG™ installation at a container terminal in South America.

Revenues and order book for our industrial applications improved due to strong demand across diverse markets and customer segments. We see significant interest in our high-power charging solution package for the mining and heavy

construction segment, where substantial resources are directed towards net-zero and at decarbonization generally. We expect such investments to accelerate and adoption rate to further progress in the future.

We have intensified our sales efforts to grow service revenue from our installed base of port installations worldwide from periodic overhauls and increasing spare parts volumes.

I joined Cavotec six months ago. I have visited customers and end users, met with many of our employees and I have also participated in assembling products at our sites worldwide. I can clearly see that we have a huge potential in Cavotec, a strong need for our products and that we have a skilled workforce. However, it is also clear to me that there are challenges and hard work to be done, which is evident in this quarter's result.

A new chapter in Cavotec's history starts now when we finally can focus on our core business with full force. I am very optimistic about our future, and I am looking forward to working with our teams to create a sustainable and profitable business.

Stockholm, November 30, 2022

David Pagels
Chief Executive Officer

Financial Review

JULY-SEPTEMBER 2022

On July 29, 2022, Cavotec completed the divestment of Airports business. As a result of the divestment, Cavotec reports its Ports & Maritime and Industry businesses combined under the name New Cavotec, while the Airports business is reported as a discontinued operation.

New Cavotec

Revenue and Order Backlog

New Cavotec's order backlog increased 65.8% compared to Q321 to EUR 153.9 million.

All regions showed growth in order backlog in ports & maritime applications compared to the same period last year, apart from the Nordics where the order backlog was flat. New orders in the quarter included a MoorMaster NxG™ installation at a container terminal in South America as well On-Ship Shore Power and PowerFit in the Middle East, MCR orders in Malaysia, the UK and the Nordics.

Industrial customers orders increased compared to the same period last year, with the highest increase coming from Connectors, Motorized Reels and Spring Reels orders.

The after-market order backlog also increased significantly.

Revenue increased 43.5% to EUR 42.0 million (29.2). The revenue includes EUR 7 million out of the EUR 10 million in revenues that were reported as delayed in the second quarter because of the disruption in the operations in Shanghai and which mainly consisted of shore power orders. Cavotec factories in China, Italy and Germany were generally at required production levels in the third quarter 2022.

Ports & Maritime deliveries showed the strongest increase within PowerAMPReels and PowerFits, mainly in China, the Far East and the Nordics and within MCR projects and Power Reach units in Europe and the Nordics. Revenue in the after-market increased due to strong demand across diverse market and customer segments.

Operating Result (EBIT)

EBIT amounted to EUR -0.4 million (0.2), corresponding to an EBIT margin of -1.1% (0.8%), impacted by several factors like the investment into the growth of the organization starting 2021. In addition, existing orders with low margins had a negative effect on profitability, together with increases of raw material and transportation costs, which were not yet fully compensated for. Local restrictions led to low capacity in the Shanghai operations in the beginning of the quarter and to inefficient logistics.

Employee costs in the quarter reflect a full quarter's cost of the increase of 65 heads that has occurred in the past twelve months. It also includes a one-off impact of EUR 1.0 million arising from the departure of the prior CEO.

Employees

The number of full-time equivalent employees in Cavotec was 636 as of 30 September 2022 (571).

Total

Operating Result (EBIT)

EBIT decreased to EUR -5.3 million (-2.1), corresponding to a margin of -11.7% (-5.8%). EBIT for the Group was mainly impacted by the poor performance of Airports of EUR -4.9 million due to higher operational expenses.

Profit for the period and earnings per share

Finance costs amounted to EUR -0.5 million (-0.4).

Currency exchange differences amounted to EUR 4.7 million (2.0). Income tax expenses for the quarter amounted to EUR -1.8 million (-0.7).

Net result for the period was EUR -3.0 million (1.2).

Earnings per share basic and diluted amounted to EUR -0.032 (-0.013).

Cash flow

Operating cash flow amounted to EUR -9.3 million (-3.6) in the quarter. Inventory levels at the end of Q3 were in line with the end of Q2. Receivables increased EUR 5 million, due to the strong increase of revenue. Furthermore, cash flow in the quarter was boosted by advance payments from customers.

Investing activities amounted to a cash inflow of EUR 11.6 million (-1.1), mainly due to the consideration received because of the divestment of Airports business and the disposal of a building in Italy, partially offset by R&D investments in New Cavotec products, especially in the continued development of our new MoorMaster NxG product.

Cash flow from financing activities was EUR -2.4 million (-1.1), mainly due to utilization of the revolving credit facility. EUR 16 million of long-term loans were reclassified as current as per 30 September 2022. However, as previously stated, after the end of the quarter, the lenders have waived the covenants for Q3 and Q4 2022.

Cash and cash equivalents amounted to EUR 9.0 million as of 30 September 2022 (9.1).

JANUARY–SEPTEMBER 2022

New Cavotec

Revenues

Revenues increased 19.8% to EUR 101.0 million (84.4).

Throughout the year we experience strong demand for On-Ship Shore Power products like PowerAMPReels, primarily for new build container vessels and, to a lesser extent PowerFits, for existing vessels in the Ports & Maritime Division. For industrial customers, motorized reels and spring reels remain a significant portion of the volume. EMEA continues to be the largest region, followed by China and North America.

Operating Result (EBIT)

EBIT amounted to EUR -2.9 million (0.9), corresponding to an EBIT margin of -2.8% (1.1%), mainly affected by investments for growth in the Ports & Maritime, as well as the Service Business. This is mainly due to the increase in headcount since the beginning of 2021. Increasing costs of materials and components, supply chain challenges and one-off costs led to a temporary decrease of profitability.

Total

Profit for the period and earnings per share

Net result for the group was EUR -6.3 million (-0.7) of which EUR -9.8 million attributable to the discontinued operations.

Earnings per share basic and diluted amounted to EUR -0.067, (-0.007).

Operating cash flow amounted to EUR -15.4 million (-6.5).

Financial Position

EUR 16 million of long-term loans were reclassified as current as per 30 September 2022. However, as previously stated, after the end of the quarter, the lenders have waived the covenants for Q3 2022 and Q4 2022. Net debt amounted to EUR 23.9 million (23.8).

Cavotec's total assets amounted to EUR 158.1 million (201.3) as of 30 September 2022.

Report on the Review

of Interim consolidated financial statements to the Board of Directors of Cavotec SA

Lugano

Introduction

We have reviewed the interim consolidated financial statements (consolidated statement of comprehensive income, consolidated balance sheet, consolidated statement of changes in equity, consolidated statement of cash flows on pages 7 to 10 and notes on pages 11-12 and 15) of Cavotec SA for the period ended 30 September 2022. The Board of Directors is responsible for the preparation and presentation of these interim consolidated financial statements in accordance with International Accounting Standard 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on these interim consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with Swiss Auditing Standard 910 and International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Swiss Auditing Standards and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim consolidated financial statements have not been prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

General information

Cavotec is a leading cleantech company that designs and delivers connection and electrification solutions to enable the decarbonization of ports and industrial applications worldwide. Backed by more than 40 years of experience, our systems ensure safe, efficient, and sustainable operations for a wide variety of customers and applications worldwide. Our credibility comes from our application expertise, dedication to innovation and world class operations. Our success rests on the core values we live by: Integrity, Accountability, Performance and Teamwork. Cavotec's personnel represent many cultures and provide customers with local support, backed by the Group's global network of engineering expertise. Cavotec SA, the Parent company, is a limited liability company incorporated and domiciled in Switzerland and listed on Nasdaq Stockholm Mid Cap.

These unaudited Financial Statements have been approved by the Board of Directors for publication on 30 November 2022.

Basis of preparation of Financial Statements

This quarterly report was prepared in accordance with IFRS, applying IAS 34 Interim Financial Reporting. The same accounting and valuation policies were applied in the most recent annual report. The amendments to the standards that became applicable for the current reporting period did not have an impact on Cavotec accounts. The condensed interim financial statements should be read in conjunction with the annual financial statements for the year ended in December 2021. The preparation of quarterly financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income, and expenses. Actual results may differ from these estimates.

Asset held for sale

As a result of the decision to divest the Airports business, Cavotec reclassified the assets and liabilities pertaining to those activities to held for sale in accordance with IFRS 5. In distinguishing between the assets and liabilities pertaining to continuing operations and those pertaining to discontinued operations judgment had to be applied, as a part of those assets and liabilities are used by both types of activities. In the Consolidated Statements of Income and of Cash Flows, discontinued operations are reported separately from continuing operations; prior periods are presented on a comparable basis. The completion of the transaction occurred 29 July 2022. Proceeds received based on the estimated closing balance sheet was EUR 13,1 million, of which EUR 2,4 million are owed back to the buyer based on the final closing balance sheet. All assets and liabilities of the discontinued business have been taken out of Cavotec group balance sheet, resulting in a final loss on the divestment of EUR 1,57 million. Approximately 212 people were working in the Airports business at the time of the sale.

<i>Income Statement</i>	Unaudited period 30-Sep-22	Unaudited period 30-Sep-21

Net cash Inflow/(outflow) from financing activities	(907)	(1,017)
Net cash Inflow/(outflow) from investing activities	12,038	(82)
Cash flow for the period	(1,630)	(11,811)

Segment information

Operating segments have been determined based on the Group Management structure in place and on the management information and used by the Chief Operating Decision Maker (CODM) to make strategic decisions. On 5 March 2021, the Group announced that it would initiate a process to divest the airports business. As a result of the divestment process, the Group has changed the organizational structure and reporting to the CODM. The Segment information presented in Q322 report reflects the two new operating segments:

New Cavotec - development and manufacture of innovative automation and electrification technologies for the global ports and maritime sectors and development and manufacture of electrification and radio control products for industrial applications, such as cranes, energy, processing and transportation, mining, and tunnelling.

Airports - development and manufacture of fully integrated gate and remote apron solutions for airports.

Legal disputes

In June 2021, Cavotec settled a class action legal suit in the USA for an amount equivalent to EUR 0.7 million. The class action relates to employment matters. The settlement was approved by the court at the end of July 2022 and paid in full in August 2022.

Sale of Property

The sale of a building in Italy was finalized in April. The net proceeds amounted to EUR 0.8M.

Sanctions

Following the recent evolution of the situation in Ukraine the Group has performed a preliminary assessment of its exposure in the region. The group has a very limited exposure to the region and foresees no material impact on the 2022 performance. The Group is carefully monitoring the evolution of the situation, having a specific focus on the sanctions, that have been and will be imposed.

Noteworthy risks and uncertainties

Cavotec's significant risks and uncertainties are divided into three categories, market, credit and liquidity risks. In these categories, there are both risks due to political and macroeconomic trends and specific risks directly linked to business carried out by the Group. Market risk includes currency and interest rate risk. Credit risk includes the risk of managing our customers and other receivables while liquidity risk includes the management of cash in a diverse, global group.

Key events during the quarter

On July 29, 2022, Cavotec announced that it had completed the sale of its Airports business, Dabico Airport Solutions, to US-based investment company Fernweh Group LLC. The transaction was announced in February 2022. The Airports business accounted for approximately 25 per cent of Cavotec's revenue in 2021. Net proceeds were approximately EUR 3.0M.

Key events after the period

EUR 16 million of long-term loans were reclassified as current as per 30 September 2022. After the end of the quarter, the lenders have waived the covenants for Q3 and Q4 2022.

Forward looking statement

Some statements in this report are forward-looking, and the actual outcome could be materially different. In addition to the factors explicitly discussed, other factors could have a material effect on the actual outcome. Such factors include, but are not limited to, general business conditions, fluctuations in exchange rates and interest rates, political developments, the impact of competing products and their pricing, product development, commercialisation and technological difficulties, interruptions in supply, and major customer credit losses.
