

Ratos announces changes in the Management Team

As communicated earlier Anna Vilogorac joins Ratos as the new CFO of Ratos, succeeding current CFO Jonas Ågrup who is retiring. Wilhelm Montgomery, current Director of Strategy & Operations at Ratos, has been promoted to Vice President of Strategy & Investments and joins the Ratos Management Team. The new role has been added to the Management Team to reflect our increased commitment to strategic execution and investments.

All changes are effective as of today, May 21, 2025.

"I sincerely want to thank Jonas Ågrup for his instrumental contributions to Ratos, highlighting the introduction of centralised financing and his role in the transformation of Ratos from an investment company into a business group. Jonas' extensive experience and broad expertise have made him a highly respected and valued member of the Group Management Team.

I am very pleased to welcome Anna Vilogorac as the new CFO at Ratos. Her broad financial background and experience in investor relations make her an ideal fit for the role. Anna brings all the necessary capabilities to support Ratos continued transformation into a more streamlined and focused group.

I am also pleased to announce the addition of Wilhelm Montgomery to the Ratos Management Team as Vice President of Strategy & Investments. Wilhelm leads our corporate strategy development and execution and therefore plays a key role in streamlining our operations.

I am confident that Ratos has the committed management team and leadership in place that we need for continued value creation for our stakeholders," says Jonas Wiström, President & CEO Ratos.

About Ratos

Ratos is a Swedish business group focusing on technological and infrastructure solutions, consisting of 14 companies divided into three business areas: Construction & Services, Industry and Consumer. The companies have approximately SEK 32 billion in net sales 2024. We have a distinct corporate culture and strategy – everything we do is based on our core values: Simplicity, Speed in Execution and It's All About People. We enable independent subsidiaries to excel by being part of something larger. People, leadership, culture and values are key focus areas.
