

## **FlexQube receives additional orders worth approximately USD 3.9 million**

FlexQube has received additional orders worth approximately USD 3.9 million from one of the world's largest e-commerce and logistics companies based in the United States. The orders include Navigator AMR robots and tugger train systems, with planned deliveries primarily during the third quarter of 2026.

These orders relate to the same project that FlexQube has previously communicated about, bringing the total order value for the project to approximately USD 17 million to date.

In line with previous communication, the project still has the potential to generate additional orders in 2027 and 2028.

### **About FlexQube**

FlexQube is a technology company headquartered in Gothenburg, Sweden with subsidiaries in USA, Mexico, Germany and England. FlexQube offers solutions for cart-based material handling using a patented modular concept. FlexQube develops and designs customized solutions for both robotic and mechanical cart logistics. Through the own developed and unique automation concept FlexQube can offer robust and self-driving robotic carts. FlexQube has more than 1200 customers in 40 countries with primary markets being North America and Europe.

FlexQube's customers can be found within the manufacturing industry, distribution- and warehousing. We represent some of the most successful companies in the world with a significant share being represented on the Fortune 500 list. These companies exist within automotive, electric vehicle manufacturing, online retail, heavy-duty trucks, industrial automation and retail logistics.
