Ripple 2.0 open-radar API standard now available

Ripple™, hosted by the Consumer Technology Association (CTA)®, is an open-radar API standard to enable hardware and software interoperability while accelerating the growth of applications for general purpose consumer radar. Acconeer has been part of the group defining the API, and will be fully compliant with Ripple 2.0 which, unlike previous versions, supports pulsed radar.

CEO Lars Lindell comments: "Openness has always been important to us at Acconeer and participating in the work with Ripple goes in line with our business strategy and values. We believe it will help accelerate the integration of mmWave radar in consumer devices."

The Ripple 2.0 API can already now be found on CTA's **Ripple website**, and Acconeer's XE121 evaluation kit will have support for Ripple from next software release which will be available on the **Acconeer developer site** before the end of June.

About Acconeer AB
With ground-breaking technology, Acconeer has developed a radar sensor that opens a new world of interaction. Acconeer Micro Radar Sensor, with low power consumption, high precision, small size and high robustness, is a 60GHz robust and cost-effective sensor for detection, distance measurement, motion detection and camera-supported applications with low power consumption. Acconeer combines the advantage of low power consumption with highly accurate pulsed radar systems of coherent radar, all integrated into a component with a surface area of only 28 mm2. The radar sensor can be included in a range of mobile consumer products, from smartphones to wearables, but also in areas such as robots, drones, the Internet of Things, healthcare, automotive, industrial robots and security and monitoring systems. Acconeer is a semiconductor company and, as a business model, sells hardware to manufacturers of consumer electronics products. Acconeer is listed on Nasdaq First North Growth Market with the ticker code ACCON, Redeye is the company's Certified Advisor (CA). For more information: **www.acconeer.com**.
