**About Gränges**

Gränges is an aluminium technology company who drives the development of lighter, smarter, and more sustainable aluminium products and solutions. The company offers advanced materials that enhance efficiency in the customers' manufacturing process and the performance of the final products. Gränges' innovative engineering has transformed the industry for more than 125 years, and the company holds leading positions in rolled products for thermal management systems, speciality packaging and selected niche applications. Gränges has production facilities and conducts sales in three regions: Asia, Europe, and Americas. The total annual production capacity amounts to 570 ktonnes. Gränges has 2,700 employees and the share is listed on Nasdaq Stockholm. More information is available at [www.granges.com](http://www.granges.com).
