Soltech's subsidiary Neabgruppen is part of a new large project with an order value of SEK 12 million

The Soltech Group's latest acquisition in the electrical engineering industry, Neabgruppen, has now signed an agreement with the construction company Sefab in the municipality of Norrköping. The assignment involves both electrical installations and solar power on the new school to be, Styrstad skola. The construction will start in 2022.

Soltech has an offensive growth strategy with acquisitions in the solar, roof, facade and electrical engineering industries. Together, these companies will create synergy effects and build a strong group with cross-border expertise regarding sustainable solar solutions.

The Soltech Group's most recent acquisition, the electrical engineering company Neabgruppen, with business in southern Sweden, Stockholm and Norrköping, among others, has entered into a new agreement with the construction group Sefab. The agreement applies to both electrical installations and a roof-mounted solar energy solutions on Styrstad skola, which will give a sustainable solution for the next generation.

– I am grateful for the great trust we have received. Sefab is an important partner for us, not least in Östergötland, and this deepens our collaboration further. We are very much looking forward to this project and it feels extra great that in addition to electrical installations, we will also construct and install solar panels on the roof, **says Pelle Norberg, CEO of Neabgruppen.**
