

BrainCool receives an order for 10 demo versions of BrainCool™ System from ZOLL®

BrainCool AB (publ) announces today that the company has received an order from its commercialization partner ZOLL® for 10 demo versions of BrainCool™ System. The order value is SEK 1.7 million, and the equipment will be delivered in the first quarter of 2025. BrainCool™ System offers precision temperature management of the body, for example, to improve survival and reduce permanent disability in people suffering from sudden cardiac arrest or stroke.

The demo version of BrainCool™ System, Table Top, is a portable simulation equipment for real-life demonstration of the system's key benefits in precision cooling of patients suffering from stroke or cardiac arrest.

"Table Top is a powerful tool for promoting BrainCool™ System to new customers. The order of ten units from ZOLL® confirms our commercialization partner's commitment to making the BrainCool™ System the leading cooling system on the market," said Jon Berg, CEO of BrainCool.

The ZOLL® sales and marketing team will use Table Tops to showcase the key benefits of BrainCool™ System. Table Top is a highly flexible and efficient tool that is portable and easy to use, whereas demonstrating the complete BrainCool™ System to potential customers can be cumbersome and time-consuming. Training and practice on the BrainCool™ System can be conducted on a Table Top, including handling various alarm and alert functions. Table Top is also ideal for demonstrations at fairs and events within the medical sector.
