

## Partnership agreement at a value of 10 MSEK signed between C-RAD and Katholisches Klinikum Bochum

**Katholisches Klinikum Bochum gGmbH – St. Josef Hospital in Bochum, Germany, has decided to use the C-RAD SGRT solution in its modernised radiotherapy.**

The order, which has a value, before taxes, of approximately 10 MSEK for C-RAD, includes the complete software suite, including modules for Respiratory Gating, Patient Setup & Positioning, and Motion Monitoring. A service contract for several systems is also included. Delivery and installation are expected to commence before the end of the year.

"I am pleased that C-RAD is coming to the Katholisches Klinikum Bochum as a strong partner for us and our patients. With breath-guided radiation, we will be able to guarantee an important oncological therapy at a high level, especially in the area of stereotactic radiation of the lung, liver and abdomen, and will also be able to further improve the treatment of breast cancer patients" explains Prof. Dr. Christian Baues, Director of the Clinic for Radiotherapy at St. Josef Hospital. Prof. Baues holds the chair of Radiotherapy at Ruhr-Universität Bochum (RUB).

"Working alongside the Katholisches Klinikum Bochum team to implement surface tracking is an exciting endeavor," says Cecilia de Leeuw, CEO and President of C-RAD AB. "This collaboration holds the promise of forging a stronger partnership and enhancing the standard of care in advanced radiation therapy."

## About C-RAD

C-RAD develops surface-guided imaging solutions for radiation therapy to allow highly accurate dose delivery to the tumor, and at the same time, to protect healthy tissue from unwanted exposure. Using high-speed 3D cameras combined with augmented reality, C-RAD supports the initial patient setup process and monitors the patient's motion during treatment to ensure high confidence, an efficient workflow, and improved accuracy. C-RAD monitors the patient's motion without the use of tattoos or additional imaging dose, to deliver the highest level of patient safety and comfort.

C-RAD. Inspiring excellence in cancer treatment.

C-RAD AB is listed on NASDAQ Stockholm.

## About Katholisches Klinikum Bochum gGmbH

"Top medicine with a heart" is the claim of the Catholic Hospital Bochum (KKB). High medical standards and human attention at the same time. The KKB, with around 1,600 beds, is one of the largest hospital companies in the Ruhr region. The St. Josef Hospital, St. Elisabeth Hospital, St. Maria Hilf Hospital (each in Bochum), the Marien Hospital and Martin Luther Hospital (each in Bochum-Wattenscheid) as well as the Blankenstein Clinic (Hattingen) treat around 60,000 inpatients annually. The catchment area extends far beyond the Ruhr region and NRW.

## About St. Josef-Hospital Bochum

St. Josef Hospital is the largest operating facility of the Catholic Hospital Bochum (KKB) and has had the status of a university hospital since the 1970s.
