## Fasadgruppen to carry out extensive energy renovation of multi-family residential properties in Oslo

**Fasadgruppen's subsidiary DVS Entreprenør has signed a contract with tenant-owner association Sandaker Borettslag in Oslo for an extensive energy renovation.**

Sandaker Borettslag consists of 4 eight-storey buildings with a total of 344 apartments built in 1975-1976. The buildings currently have insufficient insulation with many cold bridges and low thermal comfort. As part of the project, all façades will be renovated, new insulation will be added, and all windows and entrance doors will be replaced. The work will last approximately 16 months, starting in September. The order value amounts to approximately NOK 56 million.

Leif Erik Mortensen, CEO of DVS Entreprenør said: "We are pleased to help Sandaker Borettslag in this extensive project where they have taken a holistic approach to the façade. When all work is done, the houses will have modern energy performance and a comfortable indoor climate."
