Viscaria completes a directed share issue of 42,105,264 shares, raising proceeds of approximately SEK 800 million

Press release 23 October, 2025 00:30 CEST

The Board of Directors of Gruvaktiebolaget Viscaria ("Viscaria" or the "Company") has, based on the authorisation from the annual general meeting on 8 May 2025, resolved to carry out a directed share issue of 42,105,264 shares at a subscription price of SEK 19.00 per share (the "Directed Share Issue"). The Directed Share Issue will, as previously communicated, be followed by a rights issue (the "Rights Issue", and together with the Directed Share Issue the "Capital Raising"). The subscription price in the Directed Share Issue has been determined through an accelerated book building procedure performed by Handelsbanken Markets ("Handelsbanken") and Skandinaviska Enskilda Banken AB ("SEB"). The Directed Share Issue received strong interest from new and existing shareholders.

The bookbuilding procedure that was announced by the Company earlier this evening has been completed and the Board of Directors of Viscaria has resolved to carry out a directed issue of 42,105,264 shares, at a subscription price of SEK 19.00 per share, consequently raising issue proceeds of approximately SEK 800 million before transaction costs. The subscription price in the Directed Share Issue corresponds to a discount of 14.4 percent in relation to the closing price for Viscaria's share on Nasdaq Stockholm on 22 October 2025 and 0.9 percent in relation to the volume weighted average price during the last 20 trading days. As previously communicated,

Thomas von Koch (through company) and Jan Ståhlberg, participated with a total of approximately SEK 200 million, which exceeded their respective current ownership stakes in the Company. Moreover, a number of existing shareholders participated including the Fourth Swedish National Pension Fund, Santhe Dahl, SEB Stiftelsen, Skandia and funds managed by Swedbank Robur. The Company also received a number of new shareholders, including the Third Swedish National Pension Fund and Unionen. The Directed Share Issue received strong interest from high quality investors, which resulted in that the Board of Directors decided to increase the Directed Share Issue from SEK 750 million to SEK 800 million.

After the Directed Share Issue, the total number of shares in Viscaria will amount to 150,201,606.

The purpose of the Capital Raising is to secure parts of the total financing for the reopening of the Viscaria mine. The issue proceeds will be used in approximately equal parts for (i) investments in building, construction and process equipment for the processing plant, (ii) various infrastructure investments, (iii) mine dewatering and mine rehabilitation, (iv) deposit for closure costs as well as (v) other minor investments and continuous operating costs.

Jörgen Olsson, CEO of Viscaria, comments:

"We are truly grateful for the continued trust shown by our existing shareholders and warmly welcome new investors such as the Third Swedish National Pension Fund and Unionen who are joining us in this directed share issue. I would also like to extend a special thanks to those who have expressed their intention to participate in the upcoming rights issue. This support is a strong endorsement of our strategy and the long-term potential of the Viscaria project. Together, we are building a modern and responsible copper mine that will play a key role in securing Europe's supply of critical raw materials."

As previously communicated, the Company was granted an environmental permit from the Land and Environment Court at Umeå District Court on 6 May 2024 and the permit gained legal force on 16 April 2025. The total capital need for the reopening of the Viscaria mine is estimated to amount to approximately SEK 6.7 billion, with the assumption that approximately 60 percent is to be financed with debt. Since the end of May 2020 and until 30 September 2025, approximately SEK 2.2 billion has been invested in the Company and the initial focus has been to secure and increase mineral resources and other mining activities, such as infrastructure investments, mine design and metallurgy, as well as investments in the environmental permit process. Total cash at the end of September 2025 amounted to approximately SEK 317 million.

Regarding the debt financing, the Company has, as previously communicated by way of press release on 14 October 2025, mandated a syndicate of the leading global financial institutions Société Générale and ING to arrange a structured project debt financing package of up to approximately SEK 3.9 billion (including a so-called *cost overrun facility* of approximately SEK 370 million). This loan mandate constitutes an important milestone in the project financing process for the reopening of the Viscaria mine.

Similar to the reasons for the directed share issues carried out in 2024 and 2023, the Board of Directors assesses that the future capital need requires a further broadening of the ownership base with additional well-capitalised shareholders who can support the Company in the long term. Through the Directed Share Issue, the Company has attracted additional long-term, well-capitalised institutional shareholders, who have financial capabilities to support the Company with capital in future capitalisations, primarily in the planned Rights Issue. Further, the Company considers that the Directed Share Issue in combination with the planned Rights Issue strengthens the Company's negotiation position in the now ongoing project financing process. It has further been deemed favourable for the interest from new institutional investors to participate in the Directed Share Issue if existing shareholders also participate in the Directed Share Issue, or in certain cases increase their holdings, as these larger existing shareholders for a longer time period have been able to follow and create a better understanding for the project; a project that is complex in a listed environment and therefore also very unusual on the Swedish capital market. As the Board of Directors previously confirmed and reaffirms today, a significant portion of the existing shareholders have expressed support to that the Company's capital need is also covered by directed share issues when it is deemed advantageous for the Company and all shareholders.

The Board of Directors considers that the Directed Share Issue and Rights Issue constitutes a good comprehensive solution to cover parts of the Company's very large capital need, where the Directed Share Issue – and the support that has been expressed for the Rights Issue within this – constitutes an important prerequisite to be able to carry out the Rights Issue in the best manner possible for the Company. The Board of Directors also considers that all existing shareholders shall be given the possibility to support the Company's continued development, which they will be given the opportunity to do in the planned Rights Issue.

The Board of Directors' overall assessment is that the rationale for carrying out the Directed Share Issue at this time, and in this manner, and to thereby ensure financing, broaden the shareholder base and, in addition, increase some institutional and professional existing shareholders' long-term commitment to and responsibility for the Company, strongly outweighs the reasons that justify the main rule of only issuing shares with preferential rights for existing shareholders. Thus, the Board of Directors has assessed that a share issue with deviation from the shareholders' preferential rights is in the interest of the Company and all shareholders, and notes that all shareholders will be given the opportunity to participate in the planned Rights Issue.

The fact that the Company has previously raised shareholder loans from a few larger shareholders has not influenced the aforementioned considerations, as the intention was and still is that these will be converted into equity of which to some extent in the subsequent Rights Issue, whereby the Company's assessment is that the timing and type of share issue for such conversion is of secondary importance.

As the subscription price in the Directed Share Issue has been determined through a bookbuilding procedure, the Board of Directors assesses that the issue's subscription price has been set on market terms, in such a way that it reflects prevailing market conditions and investor demand.

The Company's largest shareholder Thomas von Koch (through company) and the shareholder Jan Ståhlberg have participated with a total of approximately SEK 200 million in the Directed Share Issue. Both Thomas von Koch and Jan Ståhlberg have also expressed their intentions to subscribe for their respective pro rata shares in the upcoming Rights Issue as well as to guarantee the Rights Issue up to an amount corresponding to three times their respective pro rata shares following the Directed Share Issue. Thomas von Koch's and Jan Ståhlberg's respective subscriptions are intended to be carried out to approximately 50 percent through set-off of outstanding shareholder loans. In the event that Thomas von Koch's and Jan Ståhlberg's respective intended guarantee undertakings need to be called upon, this will also be carried out to approximately 50 percent through set-off of outstanding shareholder loans. No compensation will be paid for the intended guarantee undertakings.

The remaining three lenders in the shareholder loan have also expressed their intention to subscribe for their respective pro rata shares in the Rights Issue through a combination of set-off of outstanding shareholder loans and cash. In total, approximately SEK 125 million of the Company's outstanding shareholder loans are expected to be set off in the Rights Issue through subscription of the lenders' respective pro rata shares (provided that the intended guarantee undertakings do not need to be called upon). In addition to these lenders, a number of additional investors, including funds managed by Swedbank Robur, as well as the Fourth Swedish National Pension Fund and JOHECO AB (which is partly owned by Viscaria's CEO Jörgen Olsson), have expressed interest to participate in the Rights Issue with their respective pro rata shares. Altogether, this entails that the Rights Issue is expected to be fully subscribed.

The Company intends to convene an Extraordinary General Meeting where the Board of Directors will propose that the general meeting resolves on an authorisation to the Board of Directors to decide on the planned Rights Issue, which is expected to be completed no later than during the first quarter of 2026. The notice for the Extraordinary General Meeting will be published within short. The terms for the Rights Issue will be communicated in connection to the Board of Directors' intended decision thereof.

The Directed Share Issue entails an increase in the number of shares in Viscaria from 108,096,342 shares to 150,201,606 shares. The Company's share capital increases from SEK 216,192,684 to SEK 300,403,212. The Directed Share Issue implies a dilution of approximately 28 percent in relation to the total number of outstanding shares and votes in the Company after the Directed Share Issue. The Company will prepare and publish an information document in accordance with Annex IX of Regulation (EU) 2017/1129 prior to the new shares being admitted to trading on Nasdaq Stockholm Main Market.

In connection with the Directed Share Issue, the Company has undertaken, subject to customary exceptions, not to issue additional shares during a period of 90 calendar days from the settlement date. In addition, the Company's Chairman of the Board of Directors, Chief Executive Officer, Chief Financial Officer as well as Thomas von Koch, have agreed, subject to certain exceptions, not to sell any shares in Viscaria during a period of 90 calendar days from the settlement date. The subsequent Rights Issue is not subject to the undertakings.

About Viscaria

Gruvaktiebolaget Viscaria is a company that is scaling up to become a modern and responsible producing mining company through the reopening of the Viscaria mine in Kiruna with a targeted commencement date by 2027. The deposit's high copper grade, assessed mineral resources, geographical location and growing team of experienced employees provide good conditions for the company to become an important supplier of high-quality and responsibly produced copper – a metal that has a central role in Sweden's and Europe's climate transition. In addition to the Viscaria mine, the company holds a number of processing concessions and exploration permits in Arvidsjaur (Eva, Svartliden, Granliden) and Smedjebacken (Tvistbogravan) – all in Sweden. The parent company's shares are listed on Nasdaq Stockholm Main Market (ticker VISC).

Neither the Company nor anyone else undertake to review, update, confirm or to release publicly any revisions to any forward-looking statements to reflect events that occur or circumstances that arise in relation to the content of this press release, unless this is required under law or Nasdaq Stockholm's rulebook for issuers.

INFORMATION TO INVESTORS IN ACCORDANCE WITH THE FOREIGN DIRECT INVESTMENT REVIEW ACT (2023:560)

The Company has made the assessment that the Foreign Direct Investment Review Act (2023:560) is applicable on the Company's operations, which requires that investors, under certain circumstances, reports to, and, when applicable, receive approval from the Swedish Inspectorate of Strategic Products. Investors should make their own assessment of whether a notification obligation exists before making any investment decision regarding the securities referred to in the Directed Share Issue. For more information, please refer to the Swedish Inspectorate of Strategic Products' website, www.isp.se/eng.

INFORMATION TO DISTRIBUTORS

In order to comply with the product governance requirements contained in: (a) Directive 2014/65/EU of the European Parliament and of the Council on markets in financial instruments, as consolidated, ("MiFID II"); (b) Articles 9 and 10 of Commission Delegated Directive (EU) 2017/593, which complements MiFID II; and (c) national implementing measures (together, the "MiFID II Product Governance Requirements") and to disclaim any extra-contractual, intra-contractual or other liability to which any "manufacturer" (within the meaning of the MiFID II Product Governance Requirements) may otherwise be subject, the shares of Viscaria have been subject to a product approval process, which has determined that those shares are: (i) suitable for a target market consisting of retail investors and investors meeting the criteria of professional clients and eligible counterparties, as defined in MiFID II (the "Positive Target Market"); and (ii) suitable for distribution through all distribution channels permitted under MiFID II (the "EU Positive Target Market"). Solely for the purposes of each manufacturer's product approval process in the United Kingdom, the target market assessment in respect of the shares in the Company has led to the conclusion that: (i) the target market for such shares is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook, and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("UK MiFIR"); and (ii) all channels for distribution of such shares to eligible counterparties and professional clients are appropriate (the "UK Target Market Assessment" and, together with the EU Target Market Assessment, the "Target Market Assessment").

Notwithstanding the Target Market Assessment, Distributors should note that: the price of the

shares in Viscaria may decline and investors could lose all or part of their investment; the shares in Viscaria offer no guaranteed income and no capital protection; and an investment in the shares in Viscaria is compatible only with investors who do not need a guaranteed income or capital protection, who (either alone or in conjunction with an appropriate financial or other adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom. Conversely, an investment in the shares of Viscaria is not suitable for investors who need full capital protection or full repayment of the amount invested, cannot bear any risk or who require a guaranteed or predictable return (the “Negative Target Market”, and together with the Positive Target Market, the “Target Market”). The Target Market Assessment is without prejudice to the requirements of any contractual, legal or regulatory selling restrictions in relation to the Directed Share Issue. Furthermore, it is noted that, notwithstanding the Target Market Assessment, Joint Bookrunners will only procure investors who meet the criteria of professional clients and eligible counterparties.

For the avoidance of doubt, the Target Market Assessment does not constitute: (a) an assessment of suitability or appropriateness for the purposes of MiFID II or UK MiFIR; or (b) a recommendation to any investor or group of investors to invest in, or purchase, or take any other action whatsoever with respect to the shares in Viscaria.

Each distributor is responsible for undertaking its own target market assessment in respect of the shares in the Company and determining appropriate distribution channels.

This information is information that Gruvaktiebolaget Viscaria is obliged to make public pursuant to the EU Market Abuse Regulation. The information was submitted for publication, through the agency of the contact persons set out above, at 2025-10-23 00:30 CEST.
