Acconeer announces plans for AEC Q-100 Automotive certification

The radar technology company Acconeer AB now announces plans for AEC Q-100 certification. Since Acconeer's launch of the A1 sensor in Q1 2018, it has been JEDEC certified for consumer electronics.

The A1 sensor AEC Q-100 grade 3 certification, which covers the temperatures -40°C - +85°C, will be completed by Q3 2020 and grade 2 certification, which covers the temperatures -40°C - +105°C, will be completed by Q2 2022.

Lars Lindell, CEO Acconeer, comments: "With the announcement of our first project which covers three car models we are now taking the step to acquire the certifications necessary for the automotive industry. The dates we are announcing are based on RFQ processes that ALPS ALPINE is participating in and can be advanced should it be necessary for winning business".

About Acconeer AB

Acconeer is a leading radar sensor company based in Lund, south Sweden, in Ideon, the country's hottest region for wireless technologies. Acconeer is developing a truly leading ultra-low power, high precision 3D sensor which will revolutionize the way that mobile devices interpret their surroundings. Acconeer's ultra-low power and millimeter precision sensor will be a robust and cost-effective solution for applications ranging from virtual reality and gaming to security and robot control. Information from the sensor can also be used to identify different materials, these are just some examples of the wide range of possibilities of application areas for the sensor. Acconeer is listed on Nasdaq First North Growth Market with the ticker code ACCON, Redeye is the company's Certified Advisor (CA) and can be reached via telephone +46 (0)8 121 576 90 or via mail certifiedadviser@redeye.se.
