

Press release 2021-02-26

Acconeer receives order from Digi-Key worth USD 47 000

The order relates to Acconeer's A1 radar sensor, as well as the XM122 IoT Module. Digi-Key's global online platform, serving customers with evaluation kits and sensors intended for mass production, remains an important distribution channel for Acconeer.

Lars Lindell, CEO Acconeer, comments: "We are happy to see another order of sensors intended for customers' mass production. Part of the order also relates to our XM122 IoT Module, for which we see a continued high demand."

In addition to publicly announced orders, Acconeer continuously receives orders of smaller amounts which are not publicly announced as they are not considered to affect the share price.

About Acconeer AB

Acconeer is a leading radar sensor company based in Lund, south Sweden, in Ideon, the country's hottest region for wireless technologies. Acconeer is developing a truly leading ultra-low power, high precision 3D sensor which will revolutionize the way that mobile devices interpret their surroundings. Acconeer's ultra-low power and millimeter precision sensor will be a robust and cost-effective solution for applications ranging from virtual reality and gaming to security and robot control. Information from the sensor can also be used to identify different materials, these are just some examples of the wide range of possibilities of application areas for the sensor. Acconeer is listed on Nasdaq First North Growth Market with the ticker code ACCON, Redeye is the company's Certified Advisor (CA) and can be reached via telephone +46 (0)8 121 576 90 or via mail certifiedadviser@redeye.se.
