

PRESS RELEASE 26.06.2025

Finnish Vison joins XPartners

XPartners continues its growth across the Nordics and now welcomes the Finnish consultancy Vison Oy to the group. The acquisition strengthens XPartners' presence in the Finnish market and brings leading expertise in project management – particularly in Lean Construction and Integrated Project Delivery (IPD) – with a strong focus on infrastructure and public sector projects.

Founded in 2012, Vison has established itself as one of the pioneers of Lean/IPD in Finland. The company has close to 30 employees across offices in Helsinki and Oulu, and has acted as advisor on over 100 integrated project deliveries, as well as numerous complex public procurement projects totaling more than EUR 10 billion in value.

“Vison is one of the most experienced and driven companies in its niche, with a strong position in the Finnish market. The acquisition broadens our project management offering and brings in unique expertise. We also see significant potential for collaboration with other companies in the group – both in Finland and across other markets,” says **Sonny Mirborn**, CEO of XPartners.

Vison has a solid client base in infrastructure and the public sector, a clear niche in complex project delivery, and a strong ambition to raise competence standards across the industry.

“Joining XPartners is an exciting step and it enables continuing development of Vison as an independent company with a stronger network around,” says **Jani Saarinen**, founding partner of Vison.

“The upcoming change gives us the opportunity to keep moving forward while gaining access to a wider network and more opportunities for knowledge exchange. We look forward to collaborating with like-minded companies and contributing our experience to the broader group,” says **Miika Ronkainen**, CEO of Vison.

The transaction has been signed and is expected to close in July.
