

CORRECTION - Webstep signs framework agreement with Equinor

The agreement has a duration of three years and represents an initial value of approximately NOK 85 million. The purpose of the framework agreement is to provide Equinor with increased capacity for DevOps teams to further develop the software portfolio in close collaboration with Equinor.

The agreement is part of a digital transformation of Equinor, and Webstep will be delivering autonomous development teams. Starting up with two teams, Webstep will work on software development in the plant sector at Equinor. The Webstep teams will be located in both Stavanger and Bergen, in order to ensure close collaboration with Equinor resources and stakeholders.

"We are honored to be selected as a trusted partner by Equinor. Our two development and operations teams will consist of 15 people in total, and we are looking forward to working closely with Equinor and supporting their transformation strategy", says regional director of Webstep ASA, Geir Jåthun Hindenes.

The agreement was entered into 26 February 2021.
