

Press Release

Delayed Publication Annual Report 2022

Amersfoort, The Netherlands – May 15, 2023 – Envipco Holding N.V. (“Envipco”, or the “Company”), a leading global provider of recycling systems and Reverse Vending Machine technology, announces that the publication of its annual report 2022 will be further delayed and is expected to be published no later than the end of June 2023.

The initial delay was tied to the first-time audit of the Romanian manufacturing plant and to certain intercompany reconciliation matters. The further delay is a knock-on effect to complete the audit processes and finalization of the annual report. The company does not see any negative material impact on the 2022 Full-Year results previously communicated.

The notice for the Annual General Meeting of Shareholders will be delayed until publication of the annual report. The Annual General Meeting of Shareholders will be scheduled for 42 days after the notice has been given.

Recognising the delay in publishing the Annual Report, the company will provide a Q1 trading update on 25 May 2023.
