Green Minerals is a specialized deep-sea mining firm dedicated to the exploration and extraction of critical minerals crucial for driving the green transition. Green Minerals received an invitation from the Norwegian Energy Department to nominate acreage for the 1st licensing round on deep-sea minerals on April 30 2024. The licensing round is scheduled to open in Q3, 2024.

The Q1 report, the slides from the Capital Markets Day presentations and a recording of the webinar will be available on the Company's website www.greenminerals.no

About Green Minerals AS

Green Minerals AS mission is to deliver minerals for the green energy transition in a responsible and sustainable manner through deep sea mining of key minerals and rare earth elements (REE). This significantly reduces the social and environmental costs found in terrestrial mining while at the same time solving a strategic need for EU and the USA. For more, visit www.greenminerals.no
