The Transaction will also significantly expand and diversify the combined company's operations, improve its growth prospects and access to capital and enhance its in-house capabilities. The Transaction is expected to entail operational synergies of at least SEK 14 million. The combined company's management and organization will consist of employees from both Logistea and KMC Properties. The new organization will be structured to fully leverage the human resource potential across the two companies, and ensure all complementary skills and competencies are exhausted. Reflecting Logistea's dual share class structure, KMC Properties will receive both class A and B shares in Logistea, pro rata to the current split of class A and B shares in Logistea, respectively. Following completion of the Transaction and receipt by KMC Properties of the newly issued Logistea shares, the shares will be distributed to the shareholders of KMC Properties. It is expected that approximately 80 per cent of the consideration shares will be distributed in July 2024 and that the remaining consideration shares will be distributed in late Q3 or early Q4 2024 on the basis of an audited interim balance sheet as per 31 July 2024.

- KMC Properties will today submit a request for a written procedure among the holders of its senior secured bond loan in the nominal amount of approx. NOK 900 million (the "**Bond**") to approve that the Bond is transferred to a subsidiary of KMC HoldCo (KMC Properties AS) with a guarantee from Logistea. Holders of the Bond representing approximately 40 per cent of the nominal amount of the Bond have undertaken to vote in favor of such approval. - The class A shares and the class B shares of Logistea will continue to be listed on Nasdaq Stockholm. Logistea will have its headquarters in Stockholm.
- KMC Properties will following completion of the Transaction pursue real estate investment opportunities, which will be non-competing and have a different profile than the combined company (e.g. more focus on development projects). KMC Properties is as part of this strategy

negotiating a letter of intent for the acquisition of a number of properties out of an existing property portfolio. KMC Properties expects to remain an Oslo Stock Exchange listed company following the Transaction.

- Due to the Transaction, Logistea has resolved to reschedule the publication of its Q2 interim report from 11 July to 12 July 2024.

“We are very pleased to announce this transformational transaction where we combine two attractive and similar companies and property portfolios into one. I am looking forward to develop Logistea with my current and new colleagues with the aim to strengthen the offer to our tenants and becoming the natural choice for logistics and industrial companies,” says Niklas Zuckerman, CEO of Logistea.

“The announced transaction today is a strategic milestone for both Logistea and KMC. The combined company forms a leading Nordic logistics, warehouse and light industrial real estate company with a very strong financial and operational starting point. From this strong foundation we aim to continue work hard and capture future growth prospects and deliver best in class shareholder value,” says Patrik Tilman, Chairman of the board of Logistea.

“We look forward to joining forces with Logistea and believe that the combined company will be able to accelerate accretive growth beyond what two individual companies can achieve. The capabilities of the combined organisations will most likely create added platform value that should increase market pricing beyond net asset value (NAV) to the advantage for all shareholders,” says interim CEO of KMC Properties Stig Wærnes.

Background and Transaction rationale

Forming a leading Nordic logistics, warehouse and light industrial property company

Logistea and KMC Properties have similar types of properties with focus on logistics, warehouse and light industrial properties in attractive regions, as well as a mutual view on long-term property development and management. Logistea and KMC Properties will together form one of the largest listed Nordic logistics, warehouse and light industrial real estate companies with focus on long-term growth and financial stability.

The combined company's property portfolio will be well-diversified in terms of geographies and tenants with a property portfolio consisting of 145 properties with a property value exceeding SEK 13 billion. The portfolio will be concentrated to attractive areas, predominantly in Sweden, Norway and Denmark. The property portfolios of the two companies complement each other well with significant geographical overlap in Sweden, and the position is strengthened within prioritised growth regions. Consequently, the Transaction improves the conditions for a broader and more attractive tenant offering, meeting the needs of both existing and new tenants.

Improved financial profile

Logistea and KMC Properties believe that forming a significantly larger property portfolio and more diversified asset and tenant base, geographical presence and customer offering, will strengthen the combined company's balance sheet, reduce financial risk and thus improve the overall credit profile. These benefits are expected to, in the long-term, enable the combined company to be a more attractive counterpart for creditors as well as equity investors.

Refined capital market profile improving liquidity of the shares

KMC Properties' approximately 1,650 shareholders, who will become shareholders in Logistea, are expected to strengthen the liquidity of the shares and give access to a broader investor group. Logistea and KMC Properties expect that these factors will drive improved investor engagement and create conditions for increased value growth for current shareholders. Additionally, a combined larger company is a step towards EPRA Index inclusion.

Description of the combined company

Property portfolio and tenants

Following completion of the Transaction, the combined company will have a well-diversified property portfolio with a rental value of around SEK 949 million and a property value of over SEK 13 billion. Both Logistea and KMC Properties have stable property portfolios with similar focus on high-yielding logistics, warehouse and light industrial properties with long leases, high occupancy rates and a diversified and high-quality tenant base.

Nordic Trustee & Agency AB (publ) has agreed to approve the Waiver as it is satisfied that the Waiver is not detrimental to the interest of the holders of Parent Bonds.

Forward-looking statements are statements that are not historical facts and may be identified by words such as "believe", "expect", "anticipate", "intends", "estimate", "will", "may", "continue", "should" and similar expressions. The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions. Although Logistea believes that these assumptions were reasonable when made, these assumptions are inherently subject to significant known and unknown risks, uncertainties, contingencies and other important factors which are difficult or impossible to predict and are beyond its control. Such risks, uncertainties, contingencies and other important factors could cause actual events to differ materially from the expectations expressed or implied in this release by such forward-looking statements.

The combined company's actual results of operations, including the combined company's financial condition and liquidity and the development of the industry in which the combined company operates, may differ materially from and be more negative than those made in, or suggested by, the forward-looking statements contained in this press release. Factors, including risks and uncertainties that could cause these differences include, but are not limited to risks associated with implementation of the

combined company's strategy, risks and uncertainties associated with the combined company's ability to develop new services and enhance existing services, the impact of competition, changes in general economy and industry conditions, and legislative, regulatory and political factors.

The information, opinions and forward-looking statements contained in this press release speak only as at its date and are subject to change without notice. Combined earnings capacity

The presentation of the combined earnings capacity included in this press release is not to be equated with a forecast, but is intended to reflect a normal year. The actual outcome may differ due to decisions that affect the outcome positively or negatively in relation to normal years as well as unforeseen events. The presented earnings capacity does not include an assessment of changes in rent, vacancy or interest rates and is only intended to make visible the actual conditions on the respective balance sheet date for income and expenses given, for example, the capital structure and organisation at each balance sheet date. Logistea's income statement is also affected by changes in value and changes in the property portfolio. None of this has been taken into account in the presented earnings capacity. Net operating income is based on leases contracted on the balance sheet date and normalised, non-recoverable property costs for the current portfolio. In addition, rental value, property costs and estimated financing costs on an annual basis are included for the ongoing projects planned to be completed in 2024 and 2025, where leases have been signed.
