

FOR IMMEDIATE PRESS RELEASE

**Mosshydro AS, a subsidiary of Nordic Technology Group AS, secures a commercial contract for Membrane Filtration System upgrade to a land-based hatchery in Vestland.**

Oslo, Norway  
20 June 2024

Mosshydro AS, a subsidiary of Nordic Technology Group AS, is pleased to announce the signing of a commercial contract with an Aquaculture breeder to upgrade Membrane Filtration Systems with a value of NOK 1.8 Million.

The Aquaculture breeder has built a large land-based hatchery for salmon smolt in Vestland. The facility is close to 5 acres and the pool capacity is more than 20 000 cubic metres.

At the facility, there are RAS facilities for starter feeding, rearing, press smolt, smolt and post smolt. A total of 10+ million or more than 1 000 tonnes of smolts are to be produced a year.

*About Mosshydro:*

Mosshydro develops and manufactures water purification systems and filtration using proprietary technologies. Headquartered in Drammen, Norway with manufacturing in Sweden, Switzerland and TX/USA, Mosshydro have water purification systems installed globally in ships and marine operations as well as municipal water supplies and industrial applications – [www.mosshydro.com](http://www.mosshydro.com)
