First quarter financial review

Growing in the most profitable markets

Total gross loans
MNOK

- Gross loan balance growth of 12.3% year-on-year and 1.9% in Q2 2024
- Continued strong demand for consumer financing
- Active capital allocation: higher margins and lower capital requirements in Finland
- Underlying growth of 4.0% in Finland, 3.3% in Sweden and -4.4% in Norway

Stable yields on performing loans and deposits

Yields, performing loans and deposits

Deposits Loans Credit cards

- Strengthened pricing capabilities for loans and deposits yielding better risk/reward
- Stable yields on loans, credit card rates impacted by seasonality
- Deposit yields past peak
- Stable net yields expected in the near to medium term

Note: Methodology for yield calculation for credit cards updated as of Q4-2023. Prior quarters not adjusted.

Total income continues to grow

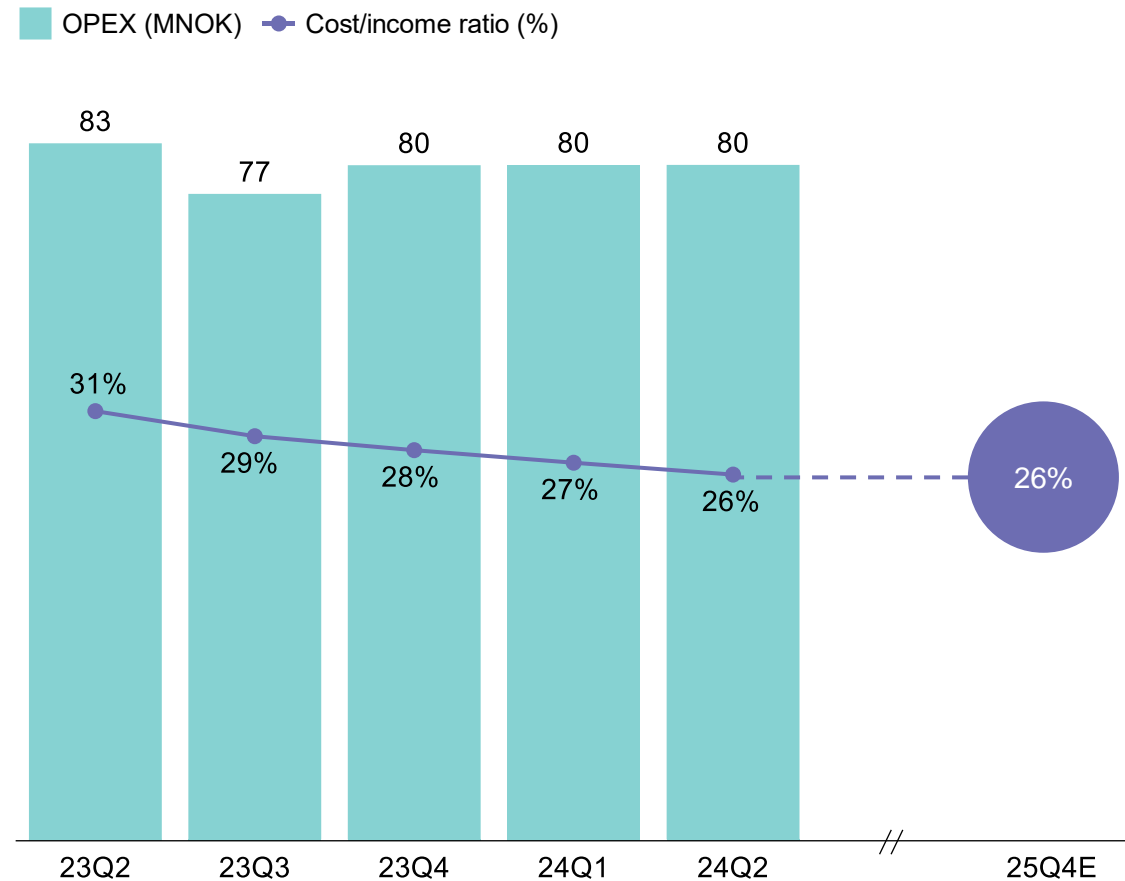

Total income (MNOK)

- Total income growth of 13.5% year-on-year and 3.1% in Q2 2024
- Driven by loan growth and increase of MNOK 7.2 in net commissions and fees (MNOK 0.4)
- Loan growth to continue to drive total income

Improved cost efficiency demonstrating scalability

Cost/income

- Stable costs for third consecutive quarter amid continued loan growth
- Reached end-2025 cost/income target in Q2 24, enabled by increased process automation
- Portfolio acquisitions will not impact future cost levels, illustrating the scalability of the platform
- Further improvement potential in ongoing IT transformation, to be concluded in H1 25c

On track for lower loan loss ratio

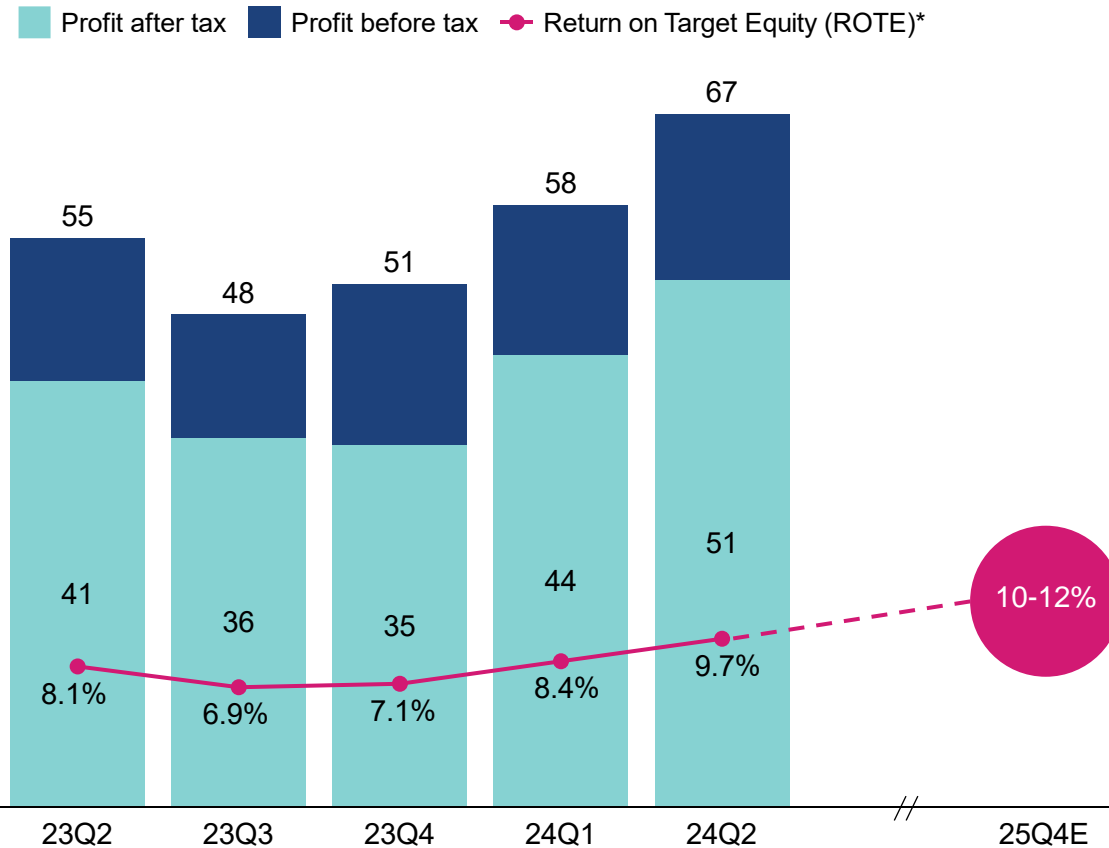

Loan losses

- Loan loss ratio continued to decline in the quarter to 5.1% (5.2%)
- Stabilising loan growth, tightened credit policies and strengthened collection processes have started to weigh in
- Partly offset by interest rates remaining higher for longer than previously anticipated
- Reduced loan loss ratio set to drive risk-adjusted margins

Profitability increasing

Profit (MNOK)

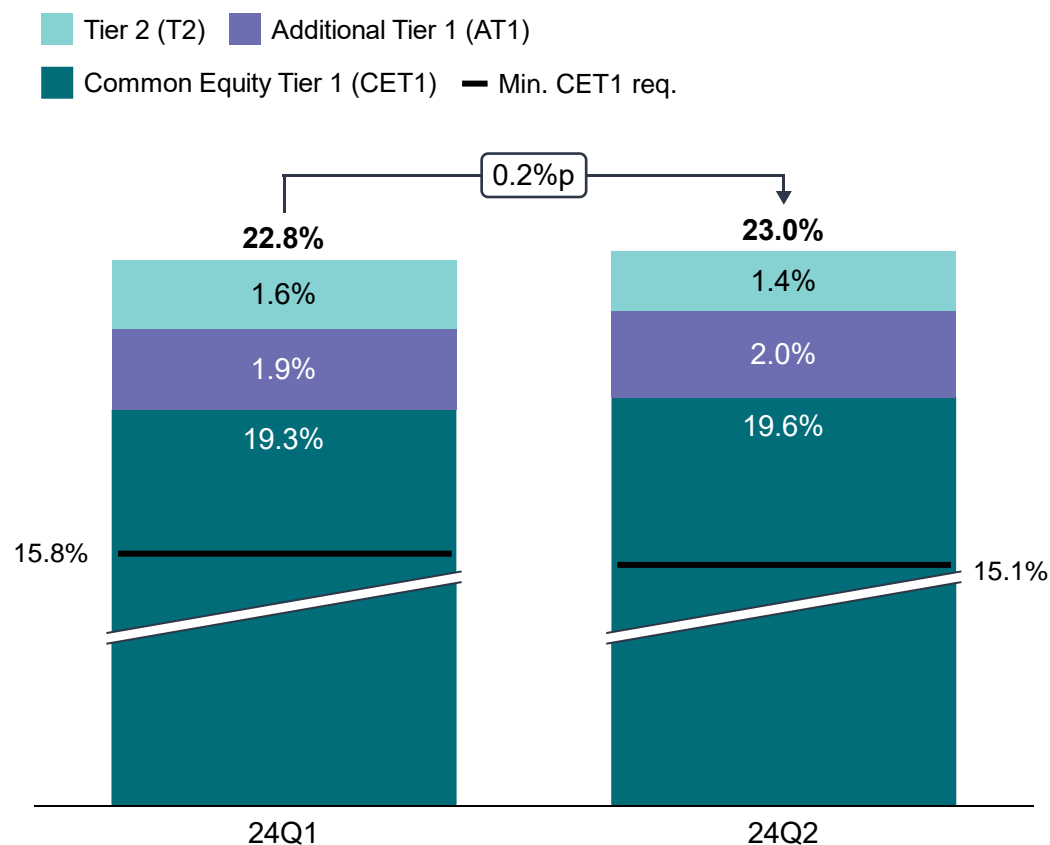

- Profit before tax of NOK 67 million in Q2 2024, up 16% from previous quarter
- Continued growth with stable cost base
- Lower loan losses to improve risk-adjusted margins
- Potential for somewhat lower Norwegian capital requirements from 2025

* The Bank defines target equity as the equity required to meet the regulatory requirements as well as buffer

Capital levels provide headroom and support growth

Capital adequacy

- Improving capital situation driven by lower capital requirements and profit generation exceeding growth
- Requirement increased by ~0.5%p in Q2 due to Finnish systemic risk buffer requirement going from 0% to 1.0%
- SREP received: Pillar 2 requirement reduced from 6.5% to 5.4%, CET1 capital target remains stable at ~17%

Loan loss ratio decreased amid stable losses and lending growth in Q2 24

Figures in MNOK

Gross lending

- Steady distribution across stages 1 and 2 reflecting controlled loan book growth
- Stage 3 volumes increasing as NPL sales have been paused. Will continue to increase, but exposure offset by adequate provisioning

Loan loss provisioning

- Ample provisioning levels limit uncertainty with respect to recoverability
- Stage 3 provisions relatively high, given large share of new loans (most < 180 days in collection) due to prior NPL sales
- Provisions include an extra macroeconomic buffer; may be released as economy improves

Loan losses

- Loan loss ratio continuing to decrease to 5.1% in Q2 24 after peak in Q4 23, while loan losses remain stable, reflecting growth in lending and better credit risk
- High provision levels and tightened credit policies from H2 last year weighing in, and strengthened collection processes now starting to bear fruit
