

Key highlights Q3-24

Profit before tax: 35.2 MNOK, -0.7 MNOK vs Q2-24

Profit after tax: 26.4 MNOK, return on equity 11.5 %

Successful sale of non-performing loans of 302 MNOK The transaction was operating profit-positive and confirms the valuation of impaired loans

Strong growth for the most profitable products

Business lending grew +107 MNOK and Mortgages +228 MNOK

Delivered on the strategy to become a well-diversified bank Business lending and mortgages now account for over 50 % of total lending

The Nordic challenger

About Instabank ASA

Instabank, the Nordic challenger bank, has been redefining the banking experience since its fully digital launch in autumn 2016. Our dedicated team is passionate about improving banking for both corporate and private customers, challenging established norms, and providing flexible solutions that simplify complexity.

Our goal is to make everyday life easier for our customers through better products, technology, and personal contact. We are proud to have more than 100,000 customers who have chosen us for their lending, payment or deposit needs.

Instabank operates in Norway, Finland competitive and Sweden, offering insurance, credit savings, cards. mortgages and unsecured loan products to consumers and small and mediumsized businesses. Instabank also offers deposits in Germany through а partnership with Raisin Bank.

The bank's products and services are distributed primarily through agents, various retail partners and the bank's website and mobile app.

Instabank is a proud sponsor of the Norwegian Athletics Federation.

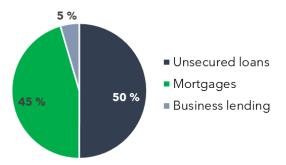

At the end of Q3-24, Instabank had 51 fulltime and 12 part-time employees.

Instabank is admitted to trading at Euronext Growth at Oslo Børs, ticker INSTA.

Operational Developments

In the third quarter, Instabank successfully improved the operations of its three main segments: mortgages, business lending, and unsecured consumer loans. The focus was on accelerate growth for the most profitable segments, mortgages and business lending. For unsecured consumer loans, Instabank continued to de-risk the loan portfolio by completing a sale of a portfolio of non-performing loans in Finland of 302 MNOK. The transaction was operating profit positive, confirming the valuation of nonperforming loans.

Instabank achieved an accelerating growth in Business lending in the third quarter of 107 MNOK, up from 54 MNOK in the previous quarter. Gross lending reached 294 MNOK, representing 4.5 % of total gross loans. Our business lending offering for small and medium-sized businesses has been well-received by the market, especially since these businesses often struggle to secure attention from other banks during the credit application process.

Our customers are established businesses seeking working capital to expand or fulfill short-term funding needs. We provide them with dedicated attention in the application process, making it simpler and shorter compared to their experiences elsewhere. With an average loan yield of 18.5 %, the profitability remains strong. We believe that the market is underserved, and we anticipate increased growth ahead.

There was a strong demand for the mortgage product in the third quarter. Mortgages represent an attractive yield, low risk and requires less capital than unsecured consumer loans. In the third quarter, mortgages increased by 228 MNOK to reach 2.962 MNOK in gross loans, accounting for 45.5 % of total lending.

45.5 %

Mortgages share of total lending

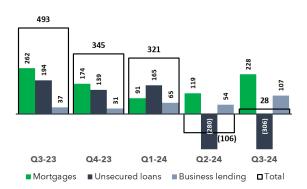

Unsecured consumer loans dropped by 306 MNOK in the third quarter to 3,260 MNOK. This decrease was primarily due to the sale of non-performing loans (NPL) in Finland, totaling 302 MNOK.

We have continued to implement measures to enhance our margins in the third quarter. Effective in August, the deposit rate for one of the savings products in Norway was decreased. Regarding our Euro funding through our partner Raisin in Germany, the interest rate peaked in December last year and has since slightly decreased.

Instabank launched a new security deposit account product earlier this year

in cooperation with Husleie.no, Norway's leading platform for managing tenancies. The lower rate of the product is expected to reduce Instabank's funding costs as the volume of secured deposits increases.

Growth total gross loans:

To enhance operational efficiency and improve customer offerings, Instabank has insourced the development of the front-end solutions. This strategic move aims to accelerate the enhancement of our online banking and mobile app services.

Instabank is committed to further geographical expansion and is making significant progress in developing a credit card offering in Germany. In the third auarter, we have advanced the development of technical solutions and entered into agreements with solution providers to support the KYC process and credit risk assessment. Like our operations in other countries, we will a cross-border enter Germany as operation with German resources working from our head office in Oslo. We have started building the German organisation for this expansion in the third quarter and expect to be ready for the Germany credit card launch in the first half of 2025.

At the end of Q3-24, the bank had 109,639 customers, of which 70,096 were loan customers and 39,543 were deposit customers.

Profit and Loss

Instabank reports a profit before tax of 35.2 MNOK in the third quarter, which was a decrease of 0.7 MNOK from the previous quarter. An increase in the total income was offset by an increase in operating expenses, mainly related to new initiatives.

Total interest income increased by 30.0 MNOK from the same quarter last year, reaching 174.4 MNOK in Q3 2024. This increase is due to a 12-month gross lending growth of 1,057 MNOK (exclusive sale of non-performing loans of 469 MNOK during the period) and an increased loan yield to 11.6 % from 11.3 % in the same quarter last year. The increase in loan yield is attributed to rate hikes and an increased share of business lending.

+ 21 %

Growth in Interest income

Interest expenses have begun to level off this year after rising significantly over the past year. In the third quarter, the funding cost fell for the first time in three years, from 4.7 % in the second quarter to 4.5 %. As a result, interest expenses increased by only 0.5 MNOK to 75.9 MNOK in the third quarter, despite an increase in deposit volume of 237 MNOK.

Net other income was 19.5 MNOK in the quarter, up 1.0 MNOK from the same quarter last year.

Total income came in at 128.4 MNOK in Q3 2024, up 15.9 MNOK or 14 % from the same quarter last year.

+ 14 %

Growth in Total Income

Operating expenses increased by 7.3 MNOK from the previous quarter, reaching 53.3 MNOK. This increase is attributed to costs associated with preparing for the launch of credit cards in Germany next year and the insourcing of front-end development. There was also an increase in provisions for employee bonuses compared to the previous quarter. The cost-to-income ratio was 41.5 %, up from 38.1 % in the previous quarter.

Loan losses remained relatively low in the third quarter, consistent with the previous quarter, amounting to 39.9 MNOK. This was positively impacted by a gain from the sale of non-performing loans in Finland.

Profit before tax Q3-24

Profit before tax was 35.2 MNOK, and profit after tax was 26.4 MNOK, representing a return on equity of 11.5 %.

Balance Sheet

Gross loans increased by 28 MNOK in the quarter to 6,517 MNOK at the end of the quarter. Adjusted for the sale of non-performing loans the increase in gross loans were 330 MNOK.

Deposits from customers increased by 237 MNOK in the quarter to 6,768 MNOK at the end of the quarter.

Total assets at the end of Q3-24 were 7,972 MNOK.

Regulatory capital

At the end of the quarter, the Common Equity Tier 1 Capital ratio was 19.5 %, up 0.2 % points from the end of the previous quarter and 1.2 % points above the regulatory capital requirement. The total capital ratio was 23.4 %, 1.6 % points above the total regulatory capital requirement.

Outlook

Instabank is well-positioned for lending growth, thanks to a diversified product range and robust capital situation. Our top priorities for lending growth include increasing business lending, mortgages, and the new credit card initiative in Germany in 2025. For 2024, we anticipate approximately 500 MNOK in gross loans growth, net of the reduction from the sale of non-performing loans of 471 MNOK this year. We reiterate the ambition of a profit after-tax above 90 MNOK for 2024.

Other information

Regarding capital requirement, there has been a limited review of the accounts in accordance with ISRE 2410 as of 30.09.2024 by the bank's auditors and the result after tax is added to retained earnings in full.

Oslo, October 31st, 2024

Board of Directors, Instabank ASA

Notes

Note 1: General accounting principles

The interim report is prepared in accordance with chapter 8 in regulations for annual accounts of banks, credit companies and financial institutions, which means interim financial statement in accordance with IAS 34 and those exceptions included in the regulations for annual accounts of banks, credit companies and financial institutions, as presentation of statement of cashflows. For further information, see note 1 accounting principles in the annual report of 2023. In the second quarter of 2024, the bank revised its accounting practices for interest income on securities. Previously, interest income on securities was recorded under "Net gains/loss on foreign exchange and securities classified as current assets". However, starting from Q2 2024, interest income on securities is now recorded under "other interest income". Positive and negative changes in the value of securities are still recorded under "Net gains/loss on foreign exchange and securities classified as current assets". Please see note 6 for more details regarding these changes. Note that these changes have no impact on the Total Income. The interim report was approved by the board of directors on October 31st, 2024.

EXPECTED CREDIT LOSS

Instabank apply the IFRS9 framework and methodology consisting of three stages of impairment when calculating Expected Credit Loss (ECL). The three stages include Stage 1 which consist of nonimpaired exposure, Stage 2 which consist of exposure where credit risk has significantly increased since origination and Stage 3 which consist of observed impairment exposure following a 90 days past due definition. The overall staging criteria is based on a combination of observed events, past due observations and submodels predicting the probability of default (PD), exposure at default (EAD) and loss given default (LGD). Predictions follow a 12-month accumulation in Stage 1, while Stage 2 and 3 follow a lifetime approach.

SIGNIFICANT INCREASE IN CREDIT RISK

Stage 2 consist of exposure where credit risk has significantly increased since origination following several different criteria, including early past due observations (30 - 90 days), current forbearance history and increase in probability of default (PD) between origination and the reporting date. The latter predictive model employs historical behavior data to predict the probability of default in the next 12 months, where default is defined as 90 days past due. Loans that are more than 90 days past due transfer from Stage 2 to Stage 3. The below table show the trigger thresholds that define a significant increase in PD origination and the reporting date. The thresholds for high and low risk at origination are 4% for Norway Unsecured, 3% for Norway Secured and 7% for Sweden. In Finland there are three groups with thresholds <5%, >=5% to <12% and >=12% for low, medium and high PD at origination.

	Mortgages		Unsecured	
	Norway	Norway	Finland	Sweden
Low Risk at origination	400% and 6pp increase	650% and 15pp increase	450% and 15pp increase	500% and 23pp increase
Medium Risk at origination			350% and 20pp increase	
High Risk at origination	300% and 8pp increase	400% and 28pp increase	250% and 25pp increase	275% and 30pp increase

MACROECONOMIC INPUT TO ECL MODEL

Instabank employ macroeconomic models for each mass market product portfolio in measuring ECL which include a pessimistic, a baseline and an optimistic macroeconomic scenario. The macroeconomic projections in the scenarios are based on data from Moody's Analytics' Global Macroeconomic Model (GMM), which is a structural model that produce more than 16.000 interrelated macroeconomic time series spanning 73 countries and reflecting specific economic conditions and relationships. The output from GMM is a baseline scenario and 10 standard alternative scenario forecasts over a 30-year time horizon which are produced at a quarterly basis and updated at a monthly basis from the source. The bank updates the scenarios quarterly at the start of a quarter. Macroeconomic logic are the basis for setting factors used to adjust ECL for each scenario. The macrofactors are adjusted based on quantitative relationships between the portfolio default rates and changes in the KPIs over time and qualitative adjustments may also be applied in extraordinary situations. The indicators included are "Unemployment Rate" (labor force survey, in %), "Interest Rate" (three month interbank offered rate, in %) and "House Price Index" (nominal index, 2010=100).

ECL SENSITIVITY BETWEEN MACRO SCENARIOS

The weighting of the scenarios is set at [30 % pessimistic - 40 % baseline - 30 % optimistic] for all portfolios. The indicators from the scenarios reflect the probability of the economy performing worse or better than the projection. For the baseline scenario, the probability that the economy performing better or worse than the projection is both equal at 50 % and is thereby the most likely outcome. For the optimistic scenario, there is a 10 % probability that the economy will perform better than projections and 90 % probability that it will perform worse and vice versa for the pessimistic scenario.

Note 4: Financial instruments

FINANCIAL INSTRUMENTS AT FAIR VALUE

Level 1: Valuation based on quoted prices in an active market.

Level 2: Valuation is based on observable market data, other than quoted prices. For derivatives the fair value is determined by using valuation models where the price of underlying factors, such as currencies.

Level 3: Valuation based on unobservable market data when valuation cannot be determined in level 1 or 2.

Assets

NOK 1000	30.09.2024	30.09.2023	31.12.2023

Total financial liabilitiies at amortised cost	6 924 674	5 828 481	6 275 194

Note 5: Leasing obligation

The bank has a right to use asset for lease of offices in Drammensveien 175 in Oslo. The leases liability is 12,6 MNOK and expires 30.06.2029. The right of use asset is 12,4 MNOK and is measured at amortised cost using the effective interest method and is depreciated using the straight-line method.

Note 6: Restated financial figures for comparison purposes

In the second quarter of 2024, the bank revised its accounting practices for interest income on securities. Previously, interest income on securities was recorded under "Net gains/loss on foreign exchange and securities classified as current assets". However, starting from Q2 2024, interest income on securities is now recorded under "other interest income". Positive and negative changes in the value of securities are still recorded under "Net gains/loss on foreign exchange and securities classified as current assets". Note that these changes have no impact on the Total Income.

To the Board of Directors of Instabank ASA

Report on Review of Interim Financial Information

Introduction

We have reviewed the accompanying interim condensed statement of financial position of Instabank ASA as of 30 September 2024, the condensed statements of profit or loss and other comprehensive income and the statement of changes in equity for the three-month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation of this interim financial information in accordance with the accounting policies described in note 1. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410 Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing (ISAs), and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with the accounting policies described in note 1.

Oslo, October 31st, 2024
