

## Huddlestock consulting business, Visigon, extends contract with the Export and Investment Fund of Denmark

18.2.2025 15:53:15 CET | Huddlestock Fintech AS | Non-regulatory press releases

Huddlestock Fintech AS ("Huddlestock"), a leading investment technology and services provider, has through its consulting business, Visigon, extended its existing agreement with the Export and Investment Fund of Denmark ("EIFO"). Visigon delivers a Software-as-a-Service Treasury-system to EIFO in partnership with Nasdaq Financial Technologies.

*"This perfectly aligns with our strategy as we transition from consultancy-based contracts to long-term service agreements, taking defined responsibility for managing, maintaining, integrating, upgrading, and supporting applications." said Lars Brink Thomsen, CEO of Visigon. "We are delivering a secure and scalable solution to EIFO in collaboration with Nasdaq as partner, and look forward to continuing our strong collaboration"*

The Export and Investment Fund of Denmark is a government-backed financial institution that supports the international growth and development of Danish businesses. The Fund offers a range of financial services, including loans, guarantees, and investments, to help Danish companies expand their operations abroad and strengthen their competitive edge in global markets.

*"Visigon has been a valued partner for EIFO, and we are pleased to extend our collaboration with them. This agreement not only strengthens our operational capabilities but also aligns with our goal to modernize and scale our services. With Visigon's expertise in both technology and finance, we are confident in our continued success in supporting Danish businesses and expanding our investment offering", says Rasmus Sindal Jørgensen, Head of Treasury at EIFO.*

### Scalable IT-solutions for Financial institutions

Through the agreement, Visigon delivers on its strategy on moving from traditional IT-services to an integrated partner with outsourcing services. Visigon enhances its product offering from a sole consultancy-based contract to also including a software service element. Visigon will assist EIFO with handling cloud hosting, maintenance, security, IT compliance, support, customization, and development of the software.

*"It is through partnerships like this, we prove our ability to serve reputable clients with our financial services. With a respected financial institution like EIFO, Visigon further solidifies its role as a trusted go-to partner for companies seeking to enhance and grow their investment offerings, committed to delivering the best solutions for our clients," says Leif Arnold Thomas, CEO of Huddlestock.*

Visigon bridge the gap between finance and technology in the evolving landscape of capital markets and treasury, through Vendor solutions, Advisory services and Software development. The group company provide industry-leading expertise with a personalized approach, tailoring our services to the unique needs and goals of every client.
