

## Cambi signs service agreement for the THP system at Damhusåen in Copenhagen

*Asker, Norway, 31 March 2025*

Reference is made to Cambi's stock exchange notice from 17 June 2022 regarding a turnkey contract for a thermal hydrolysis process (THP) system for BIOFOS at the Damhusåen wastewater treatment plant in Copenhagen, Denmark.

Cambi has now signed a service agreement to provide maintenance for the THP plant in operation since September 2024, and the surrounding process equipment.

Tord Finstad, Managing Director Services at Cambi, remarked: "This agreement follows from Cambi's strategy to enter into long-term THP service contracts, and illustrates how technology customers continue to benefit from Cambi's support over time".

The contract starts on 1 April 2025 and has a duration of five years.

### About Cambi

Cambi is a global supplier of biogas technology and solutions for wastewater treatment plants and anaerobic digestion facilities. Since 1992, Cambi has retained market leadership through continuous innovation and a robust portfolio of proven and patented technologies. With strong project delivery and customer support capabilities, the company has delivered many well-performing installations in 28 countries on six continents.

Cambi's thermal hydrolysis process increases renewable energy output, reduces operational costs, protects public health, and minimises greenhouse gas emissions. It is a future-proof solution suitable for all biosolids outlets, including land application and thermal processes such as drying, pyrolysis, and incineration. Thermal hydrolysis is compatible with all sludge and waste treatment regulations and can be integrated smoothly at new and existing anaerobic digestion sites.

Cambi is listed on Euronext Growth Oslo, a multilateral trading facility in Euronext, Europe's largest stock exchange platform. Find out more at [cambi.com](https://cambi.com).
