### **MATERIAL FACT**

Bemobi Mobile Tech S.A. (“Company”) (BMOB3), in compliance with Article 157, paragraph 4, of Law No. 6.404/76 and CVM Resolution No. 44/22, hereby informs its shareholders and the market in general that, on this date, the Board of Directors has approved the potential distribution of dividends of R\$200,000,000.00 (two hundred million reais), based on the following criteria:

- (i) the proposal for the allocation of the Company’s net income for the fiscal year ended December 31, 2024 (“Proposal”), to be approved at the Ordinary General Meeting of the Company, scheduled for April 24, 2025, which provides for the payment of additional dividends in the total amount of R\$58,493,613.29 (fifty-eight million, four hundred ninety-three thousand, six hundred and thirteen reais, and twenty-nine cents) (“2024 Complementary Dividends”); and
- (ii) the Company’s Dividend Policy for the 2025 Fiscal Year, which sets forth the guidelines for the distribution of up to 100% of the net income in the fiscal year ending December 31, 2025, at the discretion of the Management (“2025 Fiscal Year”), including the possibility of utilizing the Company’s retained earnings and reserves. This distribution shall be subject to the Company’s cash flow needs and the maintenance of an economic situation that ensures feasibility without compromising its financial and operational sustainability (“2025 Dividend Policy”).

If the Proposal is approved at the aforementioned General Meeting, the Company will have declared dividends and/or interest on equity (“JCP”) corresponding to 100% of its annual net income (excluding the legal reserve), based on the 2024 fiscal year.

The Company projects that it will pay its shareholders a total amount of R\$200,000,000.00 (two hundred million reais), composed of (i) the 2024 Complementary Dividends to be paid after approval at the General Meeting; and (ii) dividends and/or JCP to be declared based on the 2025 Dividend Policy, as deemed in the best interest of the Company by the management, always considering cash availability, financial obligations, and commitments.

To compose the total amount indicated above, which includes the 2024 Complementary Dividends and the potential use of the Company’s profit reserve base, the minimum total net income of the Company in the 2025 Fiscal Year required to support this amount should be at least R\$100,000,000.00 (one hundred million reais), approximately 20% lower than the net income recorded in the 2024 fiscal year.

The Company’s Management believes that, given its growth outlook and cash generation capacity, the shareholder compensation specified above will not compromise its ability for organic and inorganic growth, as the projected Net Income remains within comfortable achievement parameters.

In light of the estimates presented above, and in accordance with CVM Resolution No. 80, dated March 29, 2022, the Company informs that it will update its Reference Form to reflect these

estimates. Additionally, on a quarterly basis, through the Quarterly Information Form (ITR) and the Standardized Financial Statements Form (DFP), the Company will compare these estimates with the actual results obtained each quarter, providing explanations for any discrepancies, as applicable.

Finally, the Company reaffirms its commitment to corporate governance and informs that the Minutes of the Board of Directors Meeting approving this matter are available on the CVM website (Empresas.Net) and on the Company's Investor Relations website (accessible at <https://ri.bemobi.com.br/informacoesfinanceiras/fatos-relevantes-e-comunicados/>).

Rio de Janeiro, March 20, 2025.
