

Energeia

**Fearnley Annual Renewables  
& Clean-Tech Conference**

November 2025

# Energeia is the leader in the Norwegian utility PV solar market

- Founded in 2010, listed since 2022 on Euronext Growth, Oslo
- First company in Norway to gain concession for large-scale PV solar power plant (Seval Skog)
- 2 solid owners: Obligo (33%) and Eidsiva (22%) where Eidsiva is also a direct co-investor in solar PV projects
- Energeia has built, bought, owned and operated Solar PV power plants since 2011
- Currently has operations in Norway and the Netherlands
- Two current cash-generating business units in NL:
  - Drachtsterweg agrivoltaic solar PV power plant
  - ASN installation and service business

*Energeia has a concession for 46 MW of Solar PV power.  
Roughly 1/3 of all Norwegian approved capacity*

## H1 – 2025 report

- Steady cash flow from existing business in the Netherlands
- No significant changes expected to current business going forward

## Seval Skog

- NVE concession received
- Complaint rejected
- Final Investment Decision (FID) on Seval Skog expected in 2-3 months
- Competitive offers from suppliers and contractors already received

## Financing

- Rights issue raised NOK 31M in H2 2025 securing operations for 12 months
- Seval Skog financing – multiple dialogues in process

### Seval Skog: Key milestones

# Attractive ownership and an opportunity for growth

## Obligo blir ny hovedaksjonær i Solgrid AS

Akershus Energi og Østfold Energi har inngått avtale om...

### Pengene renner inn i Elvia – Eidsiva med tidenes nest beste driftsresultat

Det underliggende driftsresultatet i Eidsiva er på 2,9 milliarder kroner etter ni måneder – bare slått av ekstremåret 2022. Nettselskapet Elvia går med stort overskudd.

Henning Olsen, konsernsjef i Eidsiva Energi, kan slå fast at eierskapet i Elvia bidrar til et svært godt resultat i år. (Foto: Michael Hansen)

# Market cap below book value – substantial upside

## Consolidated statement of financial position

# Seval Skog project moving towards FID

- License to build, own and operate for 30 years (46MWdc / 30MWac)
- License to install up to 6 battery containers. 10MW/20MWh
- Single axis trackers with estimated 49 GWh annual production
- Agri-PV on 72 hectares of land owned by the municipality of Gjøvik

# Timeline for the Seval Skog project

Expected grid connection and cash flow generation starting in 2027

# Why Agrivoltaics?

- **Achievable:** Irradiation in Norway is on par with top solar markets in Europe like the Netherlands and Germany
- **Green transition:** Supports increased power demand and reduces dependence on fossil fuels

- **Food + energy:** Dual use of land for crops and power
- **No land wasted:** Keeps farmland productive between and under panels

“ By combining solar power production with in-field sheep grazing we can produce sustainable energy while providing much-needed grazing pastures for local farmers ”

# Future electricity prices in Norway: Capture price and cannibalisation

## Single-axis-trackers increases shoulder production

Increase in energy production tracker vs fixed-tilt (MWh)

- Increased production during high-value hours of the day and during key spring and autumn months

## Significant increase in realised price

Hourly value of production tracker vs fixed-tilt (Power plant simulation)

- Example: Single Axis Tracker achieves a 33.8% higher production value compared to Fixed Tilt

# Growth strategy: Executing on the extensive project pipeline

1 Energiea has a portfolio of large, mature agrivoltaic projects (400+ MWdc).  
A solid basis for growth

2 Build, Own, Operate: Energiea is a long-term owner of solar PV powerplants  
receiving cash flow from power sales over the full life span of its assets

3 First revenues in Norway expected from 2027, already steady revenue  
streams from Netherlands

4 Attractive owners with a strategy to grow the business

## Working capital :

- Fully guaranteed rights issue in September of NOK 31 m
- Secures operation and project development until September 2026
