

Invitation to Ocean GeoLoop's Capital Markets Day 2026 3rd March

(Verdal, February 26th 2026) Ocean GeoLoop AS (Ocean GeoLoop, OSE: OGL) invites investors, analysts, media and other stakeholders to attend its Capital Markets Day on Tuesday 3rd March, at 14:00 CET.

Reference is made to the press release 16th February where Ocean GeoLoop announced new company structure and the launch of cooling as a new business line, and the announcement of the Capital Markets Day 3rd March.

The event will be held in the office premises of Advokatfirmaet Schjødt, Tordenskioldsgt 12, Oslo. For those who wish to participate digitally, it will be possible to follow the event via Teams. A Teams link will be provided after registration. At the Capital Markets Day the company will provide:

- an in-depth presentation by Hans Gude Gudesen on the technological foundation underpinning the establishment of Cool AS
- an update on the group's new focused company structure, updated management team and capital allocation priorities
- defined commercial milestones across Cool, Capture and Energi Teknikk
- insight in the next phase of carbon capture monetisation, including modular units and industrial partnerships

The event will include presentations from founder and inventor Hans Gude Gudesen, Anders Onarheim, KC Littlefield, Odd-Geir Lademo and Iver Båtvik.

About Ocean GeoLoop | www.oceangeoloop.com

Ocean GeoLoop AS uses nature's own way to solve the challenges of our time in a circular way. The company has introduced the GeoLoop CC technology that captures CO₂ from point source emissions using natural and harmless processes. Ocean GeoLoop will help companies and countries achieve their goals of reduced emissions and access to renewable electricity for the green transition. The company is listed on the Oslo Stock Exchange Euronext Growth under the ticker OCEAN.
