

Invitation to the presentation of Cambi ASA's results for the second quarter of 2026

Asker, Norway, 14 August 2026

Cambi ASA invites investors, analysts, and other stakeholders to the presentation of its second-quarter 2026 results on Wednesday, 19 August 2026, at 10:00 am CEST.

The presentation will be webcast live through Cambi's investor portal:
<https://investors.cambi.com/events>

Questions to management may be submitted in advance to Investor Relations by scanning the QR code shown on screen. A dedicated Q&A session will follow the presentation.

The webcast recording and transcript will be published on Cambi's website after the event, under *Investor events* and *Results and reports* in the Investors section.

The quarterly report and accompanying Excel file with key financial figures will be published on the investor portal on the evening before the webcast.

About Cambi

Cambi is a global provider of technologies and services for water and wastewater treatment and organic materials management. Since 1992, the company has served utilities, municipalities, and industrial customers. The thermal hydrolysis process (THP) remains its core technology.

The wider portfolio includes technologies for nutrient recovery and digestion, lifecycle services, biosolids logistics and land application, composting, and soil production.

More than 100 Cambi THP systems are in operation across more than 25 countries on 6 continents. The process is used in conjunction with anaerobic digestion to enhance the treatment of organic feedstocks, increase biogas production, improve dewatering, and reduce final biosolids volumes. It can be integrated into new and existing facilities and supports downstream routes ranging from land application to thermal processing.

Cambi ASA is listed on Euronext Growth Oslo under the ticker CAMBI. Find out more at cambi.com.
