

Soiltech secures waste management contract in Norway

27.10.2026 08:04:43 CET | Soiltech ASA | Non-regulatory press releases

Soiltech ASA (OSE: STECH)

Sandnes, Norway, 27 October 2026

Soiltech ASA has been awarded a contract by an undisclosed operator to provide waste management services in Norway on a mobile drilling unit. Operations are expected to commence in the second quarter of 2027, with an expected duration of two years.

Soiltech will provide a comprehensive range of waste management services on the rig, including fluid treatment and solid waste management operations. The scope of work includes Soiltech's SmartTransfer™ system with remote operations capabilities. The contract is classified as a large contract¹ for Soiltech.

"We look forward to working with the client and delivering safe, efficient and reliable services. This contract demonstrates the breadth of our service offering and our ability to provide integrated waste management solutions," says Jan Erik Tveteraas, CEO of Soiltech.

1. Contract sizes

A sizable contract has an estimated value of MNOK 5 – 10

A substantial contract has an estimated value of MNOK 10 – 20

A large contract has an estimated value above MNOK 20
