

ZURICH, SWITZERLAND, FEBRUARY 7, 2025

# ABB launches new share buyback program of up to \$1.5 billion

On February 10, 2025, ABB will launch its previously announced new share buyback program of up to \$1.5 billion. Based on the current ABB share price this represents a maximum of approximately 27.6 million shares. The maximum number of shares that may be repurchased under this new program on any given trading day is 663,417.

This new program is consistent with ABB's capital allocation principles targeting to maintain a strong investment grade rating. Since July 2020, ABB has repurchased about 324 million shares for capital reduction purposes for a total amount of approximately \$10.3 billion.

The total number of ABB's issued shares is 1,860,614,888. This includes 16,715,684 shares that were repurchased under the 2024 share buyback program and are expected to be cancelled in Q2 2025. ABB will use the capital band authorized at its Annual General Meeting 2023 for cancellation of these shares. ABB currently owns approximately 24 million treasury shares.

The new share buyback program is for capital reduction purposes and will be executed on a second trading line on the SIX Swiss Exchange (Valor: 35.767.961; ISIN: CH035 767 961 9). It is planned to run from February 10, 2025, until January 28, 2026.

The new share buyback program will be managed by a bank mandated by ABB that, based on trading parameters received from ABB, will make its trading decisions concerning the timing of share repurchases independently of ABB. ABB can change these parameters outside of its closed periods and if it is not in possession of any inside information.

The purchase price per share will not exceed the higher of the price of the last independent trade on the ordinary trading line on the SIX Swiss Exchange and the highest current independent bid price on the ordinary trading line on the SIX Swiss Exchange. In addition, customary spreads on purchases on the second trading line on the SIX Swiss Exchange will be paid, observing the limitations of the Ordinance on Financial Market Infrastructures and Market Conduct in Securities and Derivatives Trading (FMIO). Payment for the shares will be made in cash.

The buyback program is being carried out in accordance with the Ordinance on Financial Market Infrastructures and Market Conduct in Securities and Derivatives Trading (FMIO), the Market Abuse Regulation (EU) No 596/2014 and the Commission Delegated Regulation (EU) No 2016/1052. Weekly

**ENGINEERED  
TO OUTFIT**

updates on the program will be published on ABB's investor relations website at <https://global.abb/group/en/investors/investor-and-shareholder-resources/share-buybacks> and issued by press release.

**ABB** is a global technology leader in electrification and automation, enabling a more sustainable and resource-efficient future. At ABB, we call this 'Engineered to Outrun'. The company has over 140 years of history and around 110,000 employees worldwide. ABB's shares are listed on the SIX Swiss Exchange (ABBN) and Nasdaq Stockholm (ABB). [www.abb.com](http://www.abb.com)

### **Important notice about forward-looking information**

This press release includes forward-looking information and statements as well as other statements concerning the share buyback program. These statements are based on current expectations, estimates and projections about the factors that may affect our future performance, including global economic conditions and the economic conditions of the regions and industries that are major markets for ABB. These expectations, estimates and projections are generally identifiable by statements containing words such as "anticipates," "expects," "estimates," "intends," "plans," "targets," "guidance," or similar expressions. However, there are many risks and uncertainties, many of which are beyond our control, that could cause our actual results to differ materially from the forward-looking information and statements made in this press release and which could affect our ability to achieve any or all of our stated targets. These include, among others, business risks associated with the volatile global economic environment and political conditions, market acceptance of new products and services, changes in governmental regulations and currency exchange rates. Although ABB Ltd believes that its expectations reflected in any such forward looking statement are based upon reasonable assumptions, it can give no assurance that those expectations will be achieved.
