Nocom Restructures Operations in Norway

Nocom has decided to focus its Norwegian operations on sales via dealers and partners. In conjunction with this, an action program will be implemented to reduce costs. The personnel staff will be scaled down from 16 to seven persons.

“We have decided to fully concentrate on indirect sales of licenses and the provision of associated services such as support, training and professional services. At the same time, we will implement an action program to improve efficiency and profitability,” says Peter Lämber, managing director for Nocom Partner Network

“Moreover, we are complementing and renewing our product portfolio in Norway. Our many years in the market and our good relations with market-leading suppliers give us a stable foundation on which to build further.”

Nocom Partner Network is a part of Nocom AB, which provides IT solutions to dealers and partners encompassing software, services and training. Nocom Partner Network is strongly positioned in the Nordic region with approximately 1,100 dealer agreements. After nearly twelve years in the Norwegian market, the company has solid business relations with many Norwegian partners and dealers.
