Nocom signs general agreement with Utfors

Nocom Communications, part of Nocom AB (publ), which is listed on Stockholmsbörsen's O-list, and Utfors, are extending their collaboration through a general agreement for 2001 relating to consulting services. The agreement covers consulting services within strategy, technical project management, systems development and expert support.

Utfors and Nocom have been collaborating for a few years on the development of Utfors' e-mail platform. Nocom has provided products and services for private and corporate customers. The general agreement that has now been signed covers consulting services and is applicable for use in Utfors' organisation in the Nordic region.

"This general agreement is a further step in our co-operation with Nocom," says Catarina Lönnerholm, purchasing manager at Utfors AB. "It gives us the flexibility and effectiveness we need to proceed with new technology and secure expertise for an expanding Utfors. Choosing Nocom is a natural extension of our long-term collaboration."

"We are naturally delighted about the confidence Utfors is showing Nocom in choosing us as its supplier," says Stefan Skarin, Managing Director of Nocom Communications AB.

"We look forward to being part of Utfors' initiatives in the Nordic market. There is plenty of scope for Nocom to extend its undertakings in this context."
