Nocom Signs Expanded Contract with Telia for Host Computer Access

Nocom AB has signed an agreement with Telia pertaining to software and services for host computer access. The agreement represents an expansion of previous collaboration and entails licenses, service and support for WRQ Reflection. The total value of the order is over SEK 2.5 million.

Nocom is Sweden's leading company within host computer access, with 17 years' experience and significant expertise within the sector. Telia chose to standardize its host computer access operations with WRQ Reflection, supplied by Nocom, as far back as 1995. The installation has since been upgraded and adapted to Telia's standardized workplace concept, which is being continually enhanced.
