

NOTE strengthen their market position by co-operation with Nexus

The electronic producer NOTE AB has signed a co-operation agreement with Technology Nexus AB, that develop and supply secured IT-solutions. NOTE now has the possibility to broaden their offers to new and old customers.

Through the agreement NOTE, that is the only Swedish owned global manufacturer of electronics on the market, receives access to Nexus know how regarding the whole development process. Know how and capacity that more and more customers of production ask for.

Sten Dybeck, CEO, NOTE AB, are very positive to the co-operation:

” – Together with Nexus we can accept assignments that covers the whole change of values from product development to after-market, which will strengthen our position on the market further. ”

The agreement consists of the whole offer from Nexus that among other things secure that the right level of security are built in and that design and construction are adjusted to modern production technique in order to create as good safety and profitability as possible for the end-customer, that is the owner of the products.

” – We see it as a natural step in our relation with our sub-suppliers and partners to be able to strengthen their offer to the end-customer, covering the whole range from idea to product delivery. At the same time it gives Nexus the possibility to widen their customer relations” says Ola Kjellstrand, Business Area Manager Nexus Product Sourcing.
