

**From local manufacturer of printed circuit card to global electronic producer in one year. Our group of companies are now changing name to NOTE.**

**Increased global efforts increased turnover with 63 percent in one year, company acquisitions and new started subsidiaries. The development for the electronic producer NOTE are pointing upwards.**

The head of the NOTE group (former Norrtelje) motivates the change of name:

"We like to show a clear picture to our surroundings. After one year when companies has been acquired and recently founded there are many good reasons to create a mutual profile."

The global effort has been a success. NOTE are today represented in Brazil, India, China, Germany and USA, more countries are about to join in, why the group has decided to change to a name that is more international, President Sten Dybeck continues.

NOTE AB is the holding company of the group of companies. Within the group there are three electronic producing companies: NOTE Norrtelje AB (former Norrtelje Elektronik AB) with 230 employees, NOTE Torsby AB (former Norrtelje EMS Provider i Torsby AB) with 85 employees and NOTE Gdansk Sp z o.o. (former EuroSupply Central Europe Sp z o.o.) that co-ordinates the groups Central European electronic production with slightly more than 1000 employees. Furthermore the group has been increased with two new started companies:

NOTE Components AB that co-ordinates purchasing of components all over the world and NOTE Development that among other things are extending the global network of the group of companies.

The group has today a turnover of SEK 500 m. The share is quoted at Roslagens Sparbank in Norrtaelje and an introduction to the Stockholm Stock Exchange are planned for year 2005 at the latest.
