

INTOI AB (publ) replaces managing director in IAR Systems AB

Olle Eriksson Managing Director in IAR Systems AB since 2004, is no longer an employee of the company. Recruitment of new MD is started and acting MD during the process of recruitment is Stefan Skarin CEO of parent company INTOI AB.

- IAR Systems has a strong brand and large productpotential within development tools for embedded systems. INTOI has done large investments in the company the last few years, but with an effect less than expected.- says Stefan Skarin

- We will recruit a sales-oriented managing director with extensive marketexperience that can develop and grow the company further based on IAR Systems marketleading product portfolio and broad experience in a fast growing market.
