

## **Subscription period postponed for the rights issue. Other conditions remain unchanged**

**SpectraCure AB (publ) postpones the subscription period for the rights issue which was announced on 5 May 2020. The new subscription period is between Friday, 5 June 2020 and Tuesday, 23 June 2020 inclusive. All other terms and conditions of the rights issue remain unchanged.**

The Board of Directors of SpectraCure AB (publ) has resolved to postpone the subscription period for the rights issue which was announced on 5 May 2020. The new subscription period is between Friday, 5 June 2020 and Tuesday, 23 June 2020 inclusive. The reason for this decision is that the registration of the prospectus prepared in conjunction with the rights issue with the financial supervisory authority (Finansinspektionen) will not be finalized when the subscription period was set to commence, on 2 June 2020, due to delays in the authority's processing times. All other terms and conditions of the rights issue remain unchanged.

Following the resolution, the timetable will be as follows:

4 June 2020	Publication date for the prospectus (preliminary)
5 – 23 June 2020	Subscription period
5 – 18 June 2020	Trading in unit rights (UR)
5 June onwards	Trading in paid subscription units (BTU) Trading will continue until the rights issue is registered with the Swedish Companies Registration Office, and the conclusion of the trading period will be announced later.
Around 26 June 2020	Announcement of the outcome of the rights issue

**SpectraCure** was founded in 2003 as a spin off from Lund University and LTH Faculty of Engineering. The company focuses on cancer treatments with medical systems based on laser light sources, connected to the tumour by way of optical fibers, in combination with a photoreactive drug. The method is referred to as Interstitial Photodynamic Therapy, PDT. The treatment is suitable for internal solid tumours of various kind, such as prostate and pancreatic tumours, but also for example for cancers of the head and neck.
