

Tekniska verken, owned by Linköping municipality, orders XMReality Remote Guidance

Tekniska verken, owned by Linköping municipality and active amongst other within energy production, water-, waste- and sewage management, orders XMReality Remote Guidance. The company will equip service technicians within the area metrology with the solution in order to facilitate service missions.

“Once again I note that Tekniska verken is at the forefront within their area of business when it comes to adopting new technology. The benefits of Remote Guidance are obvious within this segment and I’m convinced that the solution will generate value for the inhabitants both in the form of cost savings but also reduced travelling and further improvements to the carbon footprint.” says Jörgen Rimmelg, CEO at XMReality.

About XMReality Remote Guidance™

XMReality Remote Guidance is an AR-enabled knowledge sharing tool that lets you communicate with gestures, speech, chat and pointers with someone at a completely different place. It includes:

- A unique hands-overlay technology that lets you guide someone else’s hands—as if you were there.
- A web portal to manage teams and users, and to measure usage
- Integration through client-side API’s (Application Programming Interfaces)

About XMReality

XMReality develops and sells solutions that revolutionizes knowledge sharing through Augmented Reality (AR). The company is a market leader in Remote Guidance, which uses AR to guide onsite staff to enable quick dispositions, resolutions and/or problem prevention. The product is currently used in almost 60 countries. ABB, Nestlé, Electrolux, AB Inbev, Sidel, Hexagon, Bühler and Minibea Intec are some of the more than 80 customers. With operations in Sweden and US, XMReality is listed on Nasdaq First North (ticker: XMR). Further information is available under www.xmreality.com
