

XMReality to supply Baxter Medical AB with Remote Guidance technology

XMReality AB (publ) has signed a two-year Licensing and Service Agreement with health care company Baxter Medical AB. To start with the software will be deployed through the Nordic sales team for Advanced Surgery who is leading the initial pilot.

"I think there is great potential in the health care segment for our application. In addition to our current medical applications, where we support the medical industry with their pharmaceutical production lines, we are now gaining further traction in this segment by signing this agreement", says Jörgen Rimmelg, CEO at XMReality.

About XMReality Remote Guidance™

XMReality Remote Guidance is an AR-enabled knowledge sharing tool that lets you communicate with gestures, speech, chat and pointers with someone at a completely different place. It includes:

- A unique hands-overlay technology that lets you guide someone else's hands—as if you were there.
- A web portal to manage teams and users, and to measure usage
- Integration through client-side API's (Application Programming Interfaces)

About XMReality

XMReality develops and sells solutions that revolutionizes knowledge sharing through Augmented Reality (AR). The company is a market leader in Remote Guidance, which uses AR to guide onsite staff to enable quick dispositions, resolutions and/or problem prevention. The product is currently used in almost 60 countries. ABB, Nestlé, Electrolux, AB Inbev, Sidel, Hexagon, Bühler and Minibea Intec are some of the more than 80 customers. With operations in Sweden and US, XMReality is listed on Nasdaq First North (ticker: XMR). Further information is available under www.xmreality.com
