

XMReality signs global framework agreement with Verisure

Verisure SARL, the Swiss headquarter of Verisure, and XMReality AB have signed a global framework agreement for XMReality Remote Guidance. Verisure will initially make a deployment of XMReality Remote Guidance in their technical support function for home alarms in Sweden.

Verisure is a leading provider of professionally monitored security solutions. The company has more than 4 million customers in 16 countries across Europe and Latin America. Their business model integrates product development, design and sales with installation, service and a 24/7 professional monitoring solution.

“We are very pleased to have signed this global framework agreement with Verisure. It’s a great possibility to grow the usage of XMReality Remote Guidance within the B2C-market. The agreement also sets the base for a fast expansion within Verisure, both in terms of functions across the company and deployment in the other 15 countries of operations. The monetary value of this agreement remains to be seen within the coming 12 months.”, says Andreas Jonsson, Chief Business Development Officer at XMReality.
