

XMReality has joined Microsoft's Partner Network

XMReality has now joined the Microsoft Partner Network (MPN) as an Independent Software Vendor (ISV). The partner program provides resources that enable XMReality to scale and grow worldwide. It allows XMReality to engage with Microsoft's global ecosystem as well as market XMReality Remote Guidance in their channels.

By providing new channels to reach potential customers, the partnership is an enabler for XMReality to reach global audiences and new business opportunities. Also, many XMReality users today use one or more Microsoft products, and the partnership is a starting point for launching XMReality on Microsoft devices and integrating XMReality with Microsoft software. This partnership is part of XMReality's continued focus on its core strategy "ease of use", where being present on user's devices and in user's daily workspace is crucial to drive use.

"We are proud to announce this partnership, which will give us the possibility to reach new customers and users through Microsoft's established marketing and software distribution channels", says Jörgen Rimmelg, CEO at XMReality. "With this partnership we will also be able to give our current customers a more seamless XMReality experience on both Microsoft devices and inside Microsoft software."

About XMReality Remote Guidance™

XMReality Remote Guidance is an AR-enabled knowledge sharing tool that lets you communicate with gestures, speech, chat and pointers with someone at a completely different place. It includes:

- A unique hands-overlay technology that lets you guide someone else's hands—as if you were there.
- A web portal to manage teams and users, and to measure usage
- Integration through client-side API's (Application Programming Interfaces)

About XMReality

XMReality AB (publ) develops and sells solutions that revolutionize knowledge transfer through so-called Augmented Reality (AR). The company is a market leader in remote guidance where you guide a person on site via AR to solve problems or prevent them from occurring. The product is used globally in more than 60 countries. ABB, Nestlé, Electrolux, Sidel, Heineken and Saab are examples of the more than 90 customers. XMReality is based in Linköping and the USA and is listed on the Nasdaq First North Growth Market (ticker: XMR). For more information, visit: www.xmreality.com
