

Tangiamo Launches Next-Gen MultiPLAY Ignite Gaming Table

Tangiamo proudly introduces the innovative MultiPLAY Ignite Roulette, which aims to redefine the interactive gaming experience. This is a totally new MultiPLAY product created in close collaboration with Tangiamo's partner in the Dominican Republic. This partnership, cemented in November 2022 with the acquisition of rights to Tangiamo's technology, has been instrumental in shaping the product's direction and success.

Chris Steele, CEO of Tangiamo commented on the launch:

"With the unveiling of our MultiPLAY Ignite Roulette product, we're not just presenting a game; we're aiming at revolutionizing the gaming experience. The global gaming industry has thousands of casinos and gaming halls, and hundreds of cruise ships and ferries. This represents a multi-billion dollar value for electronic table games. Given this scale, we see MultiPLAY Ignite Roulette as having a lot of potential in capturing a significant share and positioning itself as a preferred choice for operators worldwide."

What truly sets the product apart is Tangiamo's patented touch identification technology. This feature allows multiple players to play on the same betting board simultaneously, a pioneering development that remains unmatched in the gaming market.

The product's compact design makes it a perfect fit for a diverse range of environments, from smaller gaming halls and cruise ships to sprawling casinos, providing operators with the opportunity to maximize their floor's revenue potential.

Boasting a visual overhaul, the fresh graphics and animations immerse players in a visually stunning gaming experience. Adding to the excitement, Ignite Boosted Paytables and Ignite Jackpots provide prospects of more significant wins and excitement.

As Tangiamo Touch charts its path forward, it does so with a renewed focus on leveraging cutting-edge technology to reshape the gaming landscape. Looking beyond this significant launch, Tangiamo is gearing up for further expansion in the MultiPLAY Ignite lineup. On the horizon are highly-anticipated additions in the MultiPLAY Ignite series, which will integrate Tangiamo's dice shakers and automatic dice recognition technology. With MultiPLAY Ignite Roulette leading the charge, Tangiamo Touch is poised to set new benchmarks in interactive gaming and solidify its reputation as a frontrunner in the industry.
